Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams cancost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The Crescent Beach Mall of South Carolina was your basic modern shopping center–boutiques, eateries, movie theaters, and a packed parking lot–until the very fabric of reality unraveled. Now the mall is a supernatural oddity known worldwide as “Pandora’s Box.” People travel from miles around to have their chance inside: some emerge with amazing stories, some leave the mall insane, and many are simply never seen again. Sebastian makes a bundle offering tours into the bowels of Pandora. To assuage his conscience, he gives visitors fair warning: if they have personal demons, they should not go inside. Problem is, the Box, as the locals call it, is most seductive to the worst kind of customers–haunted, twisted and desperate misfits–people who should never be allowed to visit a world that reflects their warped souls. The locals of Crescent Beach realize the magical effects are spreading beyond the confines of the haunted shopping complex. Children’s toys become weapons, pets mutate into monsters, and the flow of time itself is corrupted. Sebastian is no longer the only one in over his balding head. Sheriff Valerie Dunn is there to back up the morally bankrupt tour guide, but can they withstand the power–and temptation–of Pandora’s Box? Time to hit the mall; check your psychological baggage at the door.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Following the acclaimed Sisters of the Sun trilogy comes the Children of the Sun, a trilogy about the sisters' first-born children. Here in its second installment, Keelia, Queen of the Anwyn, falls for her shape-shifting kidnapper, but still cannot deny the ever-looming Prophecy of the Firstborn: She will betray love in the name of victory.

A look at the German High Command during World War II challenges the myth that the German Generals could have won the war had Hitler not interfered, and maps out the history and the personalities of the German Command Structure.

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.
