The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood 's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him " The Legend " ; meanwhile, the enemy feared him so much they named him al-Shaitan (" the devil ") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle ' s masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Exam Board: AQA Level: GCSE 9-1 Subject: Biology First Teaching: September 2016, First Exams: June 2018 This Collins AQA Biology GCSE 9-1 Workbook contains topic-based questions as well as a full practice paper and answers. The book containstwo full sets of up-to-date practice test papers with answers included at the back.

A thought-provoking combination of practical parenting information and scientific analysis, Our Babies, Ourselves is the first book to explore why we raise our children the way we do—and to suggest that we reconsider our culture's traditional views on parenting. New parents are faced with innumerable decisions to make regarding the best way to care for their baby, and, naturally, they often turn for guidance to friends and family members who have already raised children. But as scientists are discovering, much of the trusted advice that has been passed down through generations needs to be carefully reexamined. In this ground-breaking book, anthropologist Meredith Small reveals her remarkable findings in the new science of ethnopediatrics. Professor Small joins pediatricians, child-development researchers, and anthropologists across the country who are studying to what extent the way we parent our infants is based on biological needs and to what extent it is based on culture—and how sometimes what is culturally dictated may not be what's best for babies. Should an infant be encouraged to sleep alone? Is breast-feeding better than bottle-feeding, or is that just a myth of the nineties? How much time should pass before a mother picks up her crying infant? And how important is it really to a baby's development to talk and sing to him or her? These are but a few of the important questions Small addresses, and the answers not only are surprising, but may even change the way we raise our children.

Exam Board: Edexcel Level: GCSE Subject: Maths First Teaching: September 2015, First Exams: June 2017 Get ready for the 2019 exams using Collins Edexcel GCSE Grade 9-1 Maths Foundation Practice Test Papers.Exam-style test papers provide realistic practice to fully prepare for the GCSE 9-1 exam. The book containstwo full sets of up-to-date practice test papers with answers included at the back.
