NEW YORK TIMES BESTSELLER • From the veteran political journalist and 60 Minutes correspondent, a deep dive into the history, evolution, and current state of the American presidency, and how we can make the job less impossible and more productive—featuring a new post-2020-election epilogue "This is a great gift to our sense of the actual presidency, a primer on leadership."—Ken Burns Imagine you have just been elected president. You are now commander-in-chief, chief executive, chief

## Where To Download 2018 Trump Out Of Office Countdown Wall Calendar Is It 2021 Yet

diplomat, chief legislator, chief of party, chief voice of the people, first responder, chief priest, and world leader. You're expected to fulfill your campaign promises, but you're also expected to solve the urgent crises of the day. What's on your to-do list? Where would you even start? What shocks aren't you thinking about? The American presidency is in trouble. It has become overburdened, misunderstood, almost impossible to do. "The problems in the job unfolded before Donald Trump was elected, and the challenges of governing today will confront his successors," writes John Dickerson. After all, the founders never intended for our system of checks and balances to have one superior Chief Magistrate, with Congress demoted to "the little brother who can't keep up." In this eye-opening book, John Dickerson writes about presidents in history such as Washington, Lincoln, FDR, and Eisenhower, and in contemporary times, from LBJ and Reagan and Bush, Obama, and Trump, to show how a complex job has been done, and why we need to reevaluate how we view the presidency, how we choose our presidents, and what we expect from them once they are in office. Think of the presidential campaign as a job interview. Are we asking the right questions? Are we looking for good campaigners, or good presidents? Once a candidate gets the job, what can they do to thrive? Drawing on research and interviews with current and former White House staffers, Dickerson defines what the job of president actually entails, identifies the things that only the president can do, and analyzes how presidents in history have managed the burden. What qualities make for a good president? Who did it well? Why did Bill Clinton call the White House "the crown jewel in the American penal system"? The presidency is a job of surprises with high stakes, requiring vision, management skill, and an even temperament. Ultimately, in order to evaluate candidates properly for the job, we need to adjust our expectations, and be more realistic about the goals, the requirements, and the limitations of the office. As Dickerson writes, "Americans need their president to succeed, but the presidency is set up for failure. It doesn't have to be."

An unprecedented behind-the-scenes portrait of the Trump presidency from the anonymous senior official whose first words of warning about the president rocked the nation's capital. On September 5, 2018, the New York Times published a bombshell essay and took the rare step of granting its writer anonymity. Described only as "a senior official in the Trump administration," the author provided eyewitness insight into White House chaos, administration instability, and the people working to keep Donald Trump's reckless impulses in check. With the 2020 election on the horizon, Anonymous is speaking out once again. In this book, the original author pulls back the curtain even further, offering a first-of-its-kind look at the president and his record -- a must-read before Election Day. It will surprise and challenge both Democrats and Republicans, motivate them to consider how we judge our nation's leaders, and illuminate the consequences of re-electing a commander in chief unfit for the role. This book is a sobering assessment of the man in the Oval Office and a warning about something

## Where To Download 2018 Trump Out Of Office Countdown Wall Calendar Is It 2021 Yet

even more important -- who we are as a people.

An instant #1 New York Times bestseller. The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of *A Very Stable Genius*. "Chilling." - Anderson Cooper "Jaw-dropping." - John Berman "Shocking." - John Heilemann "Explosive." - Hallie Jackson "Blockbuster new reporting." - Nicolle Wallace "Bracing new revelations." - Brian Williams "Bombshell reporting." - David Muir The true story of what took place in Donald Trump's White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency's inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members—Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump's supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

"A brilliant lawyer...A new and very important book. I would encourage all people...to read!"—President Donald J. Trump "Absolutely amazing... If you care about justice...read this book."—Sean Hannity "Maybe the question isn't what happened to Alan Dershowitz. Maybe it's what happened to everyone else."—Politico Alan Dershowitz has been called "one of the most prominent and consistent defenders of civil liberties in America" by Politico and "the nation's most peripatetic civil liberties lawyer and one of its most distinguished defenders of individual rights" by Newsweek. Yet he has come under partisan fire for applying those same principles to Donald Trump during the course of his many appearances in national media outlets as an expert

## Where To Download 2018 Trump Out Of Office Countdown Wall Calendar Is It 2021 Yet

resource on civil liberties and constitutional law. The Case Against Removing Trump seeks to reorient the debate over impeachment to the same standard that Dershowitz has continued to uphold for decades: the law of the United States of America, as established by the Constitution. In the author's own words: "In the fervor to impeach President Trump, his political enemies have ignored the text of the Constitution. As a civil libertarian who voted against Trump, I remind those who would impeach him not to run roughshod over a document that has protected us all for two and a quarter centuries. In this case against impeachment, I make arguments similar to those I made against the impeachment of President Bill Clinton (and that I would be making had Hillary Clinton been elected and Republicans were seeking to impeach her). Impeachment and removal of a president are not entirely political decisions by Congress. Every member takes an oath to uphold the Constitution of the United States, and the Constitution sets out specific substantive criteria that MUST be met. I am thrilled to contribute to this important debate and especially that my book will be so quickly available to readers so they can make up their own minds."

Say goodnight to America's man-child-in-chief with this bestselling and wickedly funny parody. In the very classy room There was a golden mirror And a silver spoon And a broadcast of --A half-baked story from a fake newsroom . . . Goodnight Trump opens in the very classy golden bedroom of the White House, where it is bedtime for the 45th President of the United States. Readers can encourage this very stable genius to bid goodnight to some of his favorite treasures: a drawer overflowing with subpoenas, a Russian nesting doll that opens page by page to reveal a secret message, a thriving swamp just outside his window, and much more. Turn out the lights on Trump's America with this hilarious yet poignant call to action.

A coiffed and blustery pig has shoved his way into the White House! A cleverly worded and illustrated picture book, this is the adult parody of the beloved children's cautionary tale, If You Give a Pig a Pancake. Watch in dismay as the presidential pig gets into trouble, binges on too much Fox News and fast food, and cavalierly threatens national security. If You Give a Pig the White House both lovingly caricatures the original children's book series and shows just what can happen when a greedy anti-hero tracks his hooves all over America.

AN INSTANT NEW YORK TIMES BESTSELLER! The definitive biography of Nancy Pelosi, the most powerful woman in American political history, written by New York Times bestselling author and USA Today Washington bureau chief Susan Page. Featuring more than 150 exclusive interviews with those who know her best--and a series of in-depth, news-making interviews with Pelosi herself--MADAM SPEAKER is unprecedented in the scope of its exploration of Nancy Pelosi's remarkable life and of her indelible impact on American politics. Before she was Nancy Pelosi, she was Nancy D'Alesandro. Her father was a big-city mayor and her

## Where To Download 2018 Trump Out Of Office Countdown Wall Calendar Is It 2021 Yet

mother his political organizer; when she encouraged her young daughter to become a nun, Nancy told her mother that being a priest sounded more appealing. She didn't begin running for office until she was forty-six years old, her five children mostly out of the nest. With that, she found her calling. Nancy Pelosi has lived on the cutting edge of the revolution in both women's roles and in the nation's movement to a fiercer and more polarized politics. She has established herself as a crucial friend or formidable foe to U.S. presidents, a master legislator, and an indefatigable political warrior. She took on the Democratic establishment to become the first female Speaker of the House, then battled rivals on the left and right to consolidate her power. She has soared in the sharp-edged inside game of politics, though she has struggled in the outside game—demonized by conservatives, second-guessed by progressives, and routinely underestimated by nearly everyone. All of this was preparation for the most historic challenge she would ever face, at a time she had been privately planning her retirement. When Donald Trump was elected to the White House, Nancy Pelosi became the Democratic counterpart best able to stand up to the disruptive president and to get under his skin. The battle between Trump and Pelosi, chronicled in this book with behind-the-scenes details and revelations, stands to be the titanic political struggle of our time.

Arming Americans to defend the truth from today's war on facts Disinformation. Trolling. Conspiracies. Social media pile-ons. Campus intolerance. On the surface, these recent additions to our daily vocabulary appear to have little in common. But together, they are driving an epistemic crisis: a multi-front challenge to America's ability to distinguish fact from fiction and elevate truth above falsehood. In 2016 Russian trolls and bots nearly drowned the truth in a flood of fake news and conspiracy theories, and Donald Trump and his troll armies continued to do the same. Social media companies struggled to keep up with a flood of falsehoods, and too often didn't even seem to try. Experts and some public officials began wondering if society was losing its grip on truth itself. Meanwhile, another new phenomenon appeared: "cancel culture." At the push of a button, those armed with a cellphone could gang up by the thousands on anyone who ran afoul of their sanctimony. In this pathbreaking book, Jonathan Rauch reaches back to the parallel eighteenth-century developments of liberal democracy and science to explain what he calls the "Constitution of Knowledge"—our social system for turning disagreement into truth. By explicating the Constitution of Knowledge and probing the war on reality, Rauch arms defenders of truth with a clearer understanding of what they must protect, why they must do—and how they can do it. His book is a sweeping and readable description of how every American can help defend objective truth and free inquiry from threats as far away as Russia and as close as the cellphone.

The instant #1 bestseller. "This taut and terrifying book is among the most closely observed accounts of Donald J. Trump's shambolic tenure

## Where To Download 2018 Trump Out Of Office Countdown Wall Calendar Is It 2021 Yet

in office to date." - Dwight Garner, The New York Times Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's presidency "I alone can fix it." So proclaimed Donald J. Trump on July 21, 2016, accepting the Republican presidential nomination and promising to restore what he described as a fallen nation. Yet as he undertook the actual work of the commander in chief, it became nearly impossible to see beyond the daily chaos of scandal, investigation, and constant bluster. In fact, there were patterns to his behavior and that of his associates. The universal value of the Trump administration was loyalty—not to the country, but to the president himself—and Trump's North Star was always the perpetuation of his own power. With deep and unmatched sources throughout Washington, D.C., Carol Leonnig and Philip Rucker reveal the forty-fifth president up close. Here, for the first time, certain officials who felt honor-bound not to divulge what they witnessed in positions of trust tell the truth for the benefit of history. A peerless and gripping narrative, *A Very Stable Genius* not only reveals President Trump at his most unvarnished but shows how he tested the strength of America's democracy and its common heart as a nation.

The election of Donald Trump and the great disruption in the news and social media. Donald Trump's election as the 45th President of the United States came as something of a surprise—to many analysts, journalists, and voters. The New York Times's *The Upshot* gave Hillary Clinton an 85 percent chance of winning the White House even as the returns began to come in. What happened? And what role did the news and social media play in the election? In *Trump and the Media*, journalism and technology experts grapple with these questions in a series of short, thought-provoking essays. Considering the disruption of the media landscape, the disconnect between many voters and the established news outlets, the emergence of fake news and "alternative facts," and Trump's own use of social media, these essays provide a window onto broader transformations in the relationship between information and politics in the twenty-first century. The contributors find historical roots to current events in Cold War notions of "us" versus "them," trace the genealogy of the assault on facts, and chart the collapse of traditional news gatekeepers. They consider such topics as Trump's tweets (diagnosed by one writer as "Twitterosis") and the constant media exposure given to Trump during the campaign. They propose photojournalists as visual fact checkers ("lessons of the paparazzi") and debate whether Trump's administration is authoritarian or just authoritarian-like. Finally, they consider future strategies for the news and social media to improve the quality of democratic life. Contributors Mike Ananny, Chris W. Anderson, Rodney Benson, Pablo J. Boczkowski, danah boyd, Robyn Caplan, Michael X. Delli Carpini, Josh Cowls, Susan J. Douglas, Keith N. Hampton, Dave Karpf, Daniel Kreiss, Seth C. Lewis, Zoey Lichtenheld, Andrew L. Mendelson, Gina Neff, Zizi Papacharissi, Katy E. Pearce, Victor Pickard, Sue
