Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting.

Following the economic crisis of 2008, the website [bitcoin.org] was registered by a mysterious computer programmer called Satoshi Nakamoto. A new form of money was born: electronic cash. Does Bitcoin have the potential to change how the world transacts financially? Or is it just a passing fad, even a major scam? In Bitcoin: The Future of Money?, MoneyWeek's Dominic Frisby's explains this controversial new currency and how it came about, interviewing some of the key players in its development while casting light on its strange and murky origins, in particular the much-disputed identity of Nakamoto himself. Economic theory meets whodunnit mystery in this indispensable guide to one of the most divisive innovations of our time.
