This book provides a clear and concise explanation of corporations, agency and partnership, and the other subjects addressed in most Business Associations courses. To accompany its explanations, the guide utilizes a checklist format to lead students through questions they need to ask and issues they need to address, to fully evaluate the agency, partnership or corporations, problems they will face when studying this subject. It also synthesizes the material in a way that most students are unable to do on their own, and organizes the critical issues, presenting a clear guide to analyze business associations issues that students can draw upon when writing their exams. Other study aids provide sample problems, but this book offers a systematic approach to problem solving.

This book is written as a review for students taking the first course in business organizations. The author emphasizes explanation, focusing on explaining the basic concepts covered in class, providing a business and practice context for those concepts, and showing how the concepts are consistent, and sometimes inconsistent with each other. The book is organized around the life cycle of a business, beginning with the choice of business structure, ending with the choices of possible "end-games" for the business and its owners, and covering the common legal issues in running and growing a business.

The study of business organizations is, broadly speaking, a study of how people engage in business and, more importantly, how the law facilitates and regulates the operation of such businesses. Written in a clear and informative style, and chock full of examples and illustrations, this book examines the legal rules and doctrines associated with running a business--from formation to dissolution to everything in between. These rules and doctrines are explored within the context of the various organizational forms in which a business may be operated. Thus, reading this book will provide you with a solid grounding in the law of agency, general partnerships, corporations, limited partnerships, limited liability partnerships, and limited liability companies.

This title covers the law of business associations for introductory courses. It discusses business organizations, including agency, general partnerships, closely held corporations, publicly held corporations, limited partnerships, limited liability partnerships, and limited liability companies. The material on the unincorporated business forms has been revised, updated, and expanded to reflect the centrality of these forms of business organization in modern law practice and in the economy generally. Among other state and model statutes, the Revised Uniform LLC Act (2006), the Revised Uniform Partnership Act (1997), the Uniform Limited Partnership Act (2001), and the Third Restatement of Agency (2006) are discussed and cited.

At some point, most people have been caught off guard by tough interview questions. This book helps readers take charge of the situation! In *Acing the Interview*, the employment expert Dr. Phil called "the best of the best" gives job seekers candid advice for answering even the most unexpected questions, including: * You really don't have as much experience as we would like -- why should we hire you? * How many hours in your previous jobs did you have to work each week to get everything done? * What do you consider most valuable -- a high salary, job recognition, or advancement? The book also arms readers with questions to ask prospective employers that could prevent their making a big job mistake: * What would you say are the worst parts of this job? * What are the major problems facing the company and this department? * Why aren't you promoting from within? Taking readers through the entire process, from the initial interview to evaluating a job offer, and even into salary negotiation, *Acing the Interview* is a no-nonsense, take-no-prisoners guide to interview success.

Often law students don't achieve the results they are capable of, not because of a lack of intellectual ability, but because they haven't fully understood what is required of them and what they could and should do to achieve higher marks. *Acing the LLB* will help those students realise their full potential and achieve the very best marks. It explains what lecturers are looking for in a top class answer and is packed with easy-to-follow practical advice that students can use to improve their performance. The author draws upon his own experiences as a lecturer and marker of student work as well as those of colleagues at a range of institutions to offer sound and realistic advice. Engaging, accessible and very readable, this is an ideal guide for anyone starting out on an LLB or for current law students who are looking to improve their grades.
