Air Babylon does the same; only this time, it is all about airlines. Apparently, based on real events, but written in a fictional form, the events in the book occur over a 24 hour period. The book is a laugh riot from the start and might even tell you a thing or two about what airlines and their staff think of their passengers.

Influence from Mesopotamia on adjacent civilizations has often been proposed on the basis of scattered similarities. For the first time a wide-ranging assessment from 3000 BC to the Middle Ages investigates how similarities arose in Egypt, Palestine, Anatolia, and Greece. The development of writing for accountancy, astronomy, divination, and belles lettres emanated from Mesopotamians who took their academic traditions into countries beyond their political control. Each country soon transformed what it received into its own, individual culture. When cuneiform writing disappeared, Babylonian cults and literature, now in Aramaic and Greek, flourished during the Roman Empire. The Manichaeans adapted the old traditions which then perished under persecution, but traces persist in Hermetic works, court narratives and romances, and in the Arabian Nights.
