The Cooperation Council for the Arab States of the Gulf (GCC) has been at the

File Type PDF

AI Masdar Dewa

epicenter of global energy markets because of its substantial endowment of hydrocarbons. Yet countries in the region have also stated their intent to be global leaders in renewable

energy. This collection explores the drivers for the widespread adoption of renewable energy around the GCC, the need for renewable energy and the policy-economic factors that can create success. All six

File Type PDF

AI Masdar Dewa

countries within the GCC have plans to include renewable energy power generation in their energy mix for various reasons including: a growing demand for electricity because of increasing populations, an

File Type PDF

AI Masdar Dewa

increasing government fiscal deficit due to inefficient subsidies, the need to diversify the economy and global pressure to meet climate change requirements. However, the

File Type PDF

AI Masdar Dewa

decision of when and by how much to introduce renewable energy is fraught with complications. In this book, a stellar cast of regional policy and academic experts explore the reasons behind these renewable energy
