Learn the art--and science--of risk management In this exceptionally lucid, accessible book, one of the most highly regarded industry experts illuminates the delicate process of making decisions in an uncertain world and helps both lay people and professional risk managers understand the role of "risk-management" in their work, their lives, and their businesses. This book will enable professional risk managers to truly grasp the concepts behind their tools, and it will enable their clients (investors) and their coworkers to understand them as well. Handy and easy-to-read, The Book of Risk provides a down-to-earth look at an exciting field that has practical applications for everyone. Dan Borge, PhD (Clinton Corners, NY), was managing director and partner at Bankers Trust Company. He was with Bankers Trust for the last twenty years and was the architect of the first-ever risk management system implemented institutionally--Bankers Trust's renowned RAROC system. Prior to working at Bankers Trust, he designed airplanes at Boeing. He is an aeronautical engineer and has a PhD in finance from Harvard Business School.

This revised edition provides patient guidance in its clear and organized presentation of problems. It is rich in variety, large in number and provides very careful treatment of relativity. One outstanding feature is the inclusion of simple, standard examples demonstrated in different methods that will allow students to enhance and understand their calculating abilities. There are over 145 worked examples; virtually all of the standard problems are included.

In this pathbreaking and provocative new treatment of some of the oldest dilemmas of psychology and relationship, Gordon Wheeler challenges the most basic tenet of the West cultural tradition: the individualist self. Characteristics of this self-model are our embedded yet pervasive ideas that the individual self precedes and transcends relationship and social field conditions and that interpersonal experience is somehow secondary and even opposed to the needs of the inner self. Assumptions like these, Wheeler argues, which are taken to be inherent to human nature and development, amount to a controlling cultural paradigm that does considerable violence to both our evolutionary self-nature and our intuitive self-experience. He asserts that we are actually far more relational and intersubjective than our cultural generally allows and that these relational capacities are deeply built into our inherent evolutionary nature. His argument progresses from the origins and lineage of the Western individualist self-model, into the basis for a new model of the self, relationship, and experience out of the insights and implications of Gestalt psychology and its philosophical derivatives, deconstructivism and social constructionism. From there, in a linked series of experiential chapters, each of them a groundbreaking essay in its own right, he takes up the essential dynamic themes of self-experience and relational life: interpersonal orientation, meaning-making and adaptation, support, shame, intimacy, and finally narrative and gender, culminating in considerations of health, ethics, politics, and spirit. The result is a picture and an experience of self that is grounded in the active dynamics of attention, problem solving, imagination, interpretation, evaluation, emotion, meaning-making, narration, and, above all, relationship. By the final section, the reader comes away with a new sense of what it means to be human and a new and more usable definition of health.

Convergence Media History explores the ways that digital convergence has radically changed the field of media history. Writing media history is no longer a matter of charting the historical development of an individual medium such as film or television. Instead, now that various media from blockbuster films to everyday computer use intersect regularly via convergence, scholars must find new ways to write media history across multiple media formats. This collection of eighteen new essays by leading media historians and scholars examines the issues today in writing media history and histories. Each essay addresses a single medium—including film, television, advertising, sound recording, new media, and more—and connects that specific medium's history to larger issues for the field in writing multi-media or convergent histories. Among the volume's topics are new media technologies and their impact on traditional approaches to media history; alternative accounts of film production and exhibition, with a special emphasis on film across multiple media platforms; the changing relationships between audiences, fans, and consumers within media culture; and the globalization of our media culture.

To redeem himself with the Supernatural Operations Corps, Lieutenant Colonel Jan Thorsson must save New York City from invading inhuman forces including Scylla, a woman from his past who has been transformed into something evil. Original. 25,000 first printing.

Covers basic anatomy and how to modify images for a more dramatic look, discusses inking and coloring techniques, compares comic book illustrations to animation, and offers advice for getting into the industry.

A sparkingly festive and romantic story set in New York at Christmastime, Mistletoe on 34th Street is readers' favourite Lisa Dickenson at her side-splitting, funniest best! Olivia has never experienced a snow-covered, 'traditional' Christmas before. Having grown up in a family that chose winter sun over decking the halls, she's not sure what all the fuss is about. So when she and her colleagues are stranded in New York after a work trip, Olivia is perfectly happy spending the holiday season in the Big Apple. Jon, Olivia's friend, on the other hand is desperate to get home in time for his big family get-together. Nevertheless, determined to make the best out of the situation, he sets out to show Olivia how enchanting Christmas in New York can be. And when handsome New Yorker Elijah is added to the mix, could the magic of the season finally be working its charm on Olivia? As 25 December draws closer, Olivia suddenly finds herself with a decision to make: who does she really want to kiss under the mistletoe this Christmas? Full of romance and festive magic, Mistletoe on 34th Street is the funniest and most charming love story you will read this Christmas!

Elmer and Wilbur visit their Aunt Zelda. She may be getting old and deaf, but she is fun and has lots of interesting things to show the two young elephants. A warm and funny Elmer adventure extolling the virtues of cross-generational relationships.

This far-reaching discussion includes a description of the ex-gay ministries and reparative therapy as well as the Stonewall riots and AIDS, ending with the emergence of gay pride and community.
