Why would two women separated by thousands of miles share a common thread involving alien abduction? Both cases are supported by multiple witnesses and have substantial evidence. Both women experienced missing time while driving with a companion, and were later taken from their homes. Both have been unwilling participants in ongoing

experimental procedures that appear to follow family genetic lines. Both witnesses have given detailed descriptions of the crafts' interiors and technology, medical procedures, messages from the visitors, and the types of ETs they have encountered, including their society's hierarchical structure. Even more startling, both have independently described finding themselves on identical huge craft, within the same timeframe. The Alien Abduction Files finally reveals: The little-known details of alien experimental procedures The theoretical science that can explain alien technology The messages conveyed by the ETs to abduction experiencers The vulnerabilities and benefits of living life as an abduction experiencer The evidence that these phenomena are real.

A Harvard psychiatrist, the author of *A Prince of Our Disorder*, presents accounts of alien abduction taken from the more than sixty cases he has investigated and examines the implications for our identity as a species.

Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the "occupants" of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a "scientific conference" devoted to people who have reported being kidnapped by "little green men" would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, "If what the abductees are saying isn't happening to them, then what is?" This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology's most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

"The famous 1961 Betty and Barney Hill abduction by non-humans is taken apart,

meticulously re-examined by Betty ' s niece Kathleen Marden and nuclear physicist Stanton T. Friedman, and reinforced by the pressure of facts. ” —Linda Moulton Howe, Emmy award-winning TV producer, reporter, and editor, Earthfiles.com Today, 60 years after the UFO abduction of Betty and Barney Hill, more and more people are convinced that UFOs are real and their existence is being covered up by the government. If you have doubts or questions about the Hill case or alien experiences in general, *Captured!* will give you the answers you ' re searching for. The 1961 abduction of the Hills stirred worldwide interest and enthralled the public and media for decades. The case is mentioned in almost all UFO abduction books. It also became a target for debunkers, who still attack it today. But the complete story of what really happened that day, its effect on the participants, and the findings of investigators has never been told—until now. In *Captured!* you ' ll get an insider ' s look at the alien abduction, previously unpublished information about the lives of the Hills before and after Barney ' s death in 1969, their status as celebrities, Betty ' s experiences as a UFO investigator, and other activities before her death in 2004. Kathleen Marden, Betty Hill ' s niece, shares details from her discussions with Betty and from the evidence of the UFO abduction. She also looks at the Hills ' riveting hypnosis sessions about their time onboard the spacecraft. The results of a new chemical analysis of the dress Betty was abducted in is shared, which found unusual and rare elements on it Newly discovered letters at the American Philosophical Society by debunker Philip Klass, regarding an orchestrated plot to paint Betty as delusional reveal what early detractors tried to do. In addition, coauthor, physicist, and ufologist Stanton T. Friedman reviews and refutes the arguments of those who have attacked the Hill case, including the star map Betty Hill saw inside the craft and later recreated.

Some say they have been abducted and subjected to terrifying physical examinations. Others claim that young children have been kidnapped and returned only after the removal of flesh samples. Still others allege that women have been kidnapped and impregnated, the unborn children later removed for a vast cross-breeding experiment. These crimes against humanity are not perpetuated by an international terrorist organization. The "abductees" assert that they have been kidnapped by extraterrestrial beings. UFO abduction claims have spawned a veritable cottage industry, providing the fodder for an explosion of magazine articles, television interviews, newspaper features, bestselling books, and movies. Somewhere beyond all the tumult lies the truth. Dedicated to "those who will needlessly bear mental scars because of the foolish fantasies of a few," *UFO Abductions* lifts the shroud of mystery from the invisible epidemic of UFO abduction claims. Philip J. Klass, an internationally recognized skeptical authority on the subject of UFO reports, traces the history of these claims, from the celebrated Betty and Barney Hill case in 1966 to the extraordinary tales which are surfacing today. His response to these claims and the answers he provides are both absorbing and factual - a fascinating glimpse into an American subculture obsessed with visitors from outer space.

Thus begins the most astonishing true-life odyssey ever recorded—one man's riveting account of his extraordinary experiences with visitors from “ elsewhere ” . . . how they found him, where they took him, what they did to him, and why. Believe it. Or don't believe it. But read it—for this gripping story will move you like no other. It will fascinate you, terrify you, and alter the way you experience your world.

Examines how abduction narratives and individual accounts have evolved and changed, and draws a parallel to the way societal myths are made

Read Book Alien Abduction English Edition

This novel is based on a much shorter version published in David Drake's "Foreign Legions".

In *Secret Life*, Professor David M. Jacobs of Temple University takes us into the private world of those abducted by aliens, letting them describe in their own words what it is like to be abducted. Based on interviews with sixty individuals and more than 300 independently corroborated accounts, *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled. Dr. Jacobs takes the reader on a minute-by-minute journey through a typical abduction experience and describes in detail the bizarre physical, mental and reproductive procedures that abductees claim have been administered by small alien beings. Jacobs draws from these interviews a profoundly unsettling reason behind the abductions: aliens are conducting a complex reproductive experiment involving the conception, gestation, or incubation of human and alien hybrid beings.

A True Story of Alien Abduction - One of the most important, sincere and honest abduction stories out there. Finally back in print. Following the 2013 reissue of *TAKEN*, a book that has been out of print for several years and fetched excessive amounts amongst collectors and those wishing to get their hands on such a legendary piece of non-fiction, *INTO THE FRINGE* is where it all began for Dr Karla Turner and her family. As with the reissue of *TAKEN*, *INTO THE FRINGE* is an officially authorized republication with the sole input of Karla Turner's widower Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story; we excitedly bring *INTO THE FRINGE* to the 21st century. *Into the Fringe* documents the account of alien abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. "This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor, is Karla Turner's final legacy." - John Chambers, *UFO Magazine*
