Almost Everything. Despair and uncertainty surround us: in the news, in our families, and in ourselves. But even when life is at its bleakest--when we are, as she puts it, "doomed, stunned, exhausted, and over-caffeinated"--the seeds of rejuvenation are at hand. "All truth is paradox," Lamott writes, "and this turns out to be a reason for hope. If you arrive at a place in life that is miserable, it will change." That is the time when we must pledge not to give up but "to do what Wendell Berry wrote: 'Be joyful, though you have considered all the facts.'" In this profound and funny book, Lamott calls for each of us to rediscover the nuggets of hope and wisdom that are buried within us that can make life sweeter than we ever imagined. unexplored and unconventional lines, the author brings together what, on the surface, appear to be three separate lines: Judaism, Hinduism, and the Gurdjieff Work. Their link is musical harmonics, or the magical science of connection between sounds. The failure of modern musicians to achieve the magical effects long ascribed to music by the ancients is due to the prevailing ignorance of those who know nothing about the objective laws on which music is based. Ancient cultures knew how the laws of harmonics (or what comes in between the tones) could evoke metaphysical correspondences of a spiritual nature, as did Gurdjieff. The Hebrews encoded harmonics in their Tree of Life diagram, the Hindus incorporated the potent musical
