"Firsthand Louisiana: Primary Sources in the History of the State brings to its readers a companion to the study of Louisiana's history. Compiled for the first time in a single book, the dozens of important, interesting, devastating, and even entertaining firsthand accounts cover Louisiana's history from 1682, when Sieur de La Salle claimed the land for the French, up through recent controversies over the removal of Confederate memorial statues in the state. Edited by experts in the field of Louisiana history who saw a need for a collection of primary sources in the college history classroom, it also provides a fascinating read for non-academics who simply want to gain the perspective of the people- women, men, Native Americans, whites, African Americans, and many others-who created the state's complicated past. Gain on-the-scene views of important moments in the Bayou State. How did the initial interactions between Native Americans, French colonizers, and enslaved Africans play out? Why did colonists overthrow their own governor in 1768, and how did the Spanish Empire react? What did Louisianians say about the coming of the Civil War and its aftermath? How did the Plessy v. Ferguson decision, which originated in New Orleans, and the state Constitution of 1898 set the stage for Louisiana's race relations in the twentieth-century? What effects did World War II have on the state? Closer to our own time, what can we learn from firsthand accounts about the "Race from Hell," the dangers of the "chemical corridor," and the debate over how the Civil War is remembered? Read letters, speeches, reports, diaries, and more to gain a deeper understanding of Louisiana, its peoples and cultures, and its history"--
