Nations in all regions of the world today share a common international sales law, The United Nations Convention on Contracts for the International Sale of Goods (CISG). The Convention was prepared by the United Nations Commission on International Trade Law (UNCITRAL) and adopted by a diplomatic conference on 11 April 1980. Since then, the number of countries that have adopted the CISG account for over two-thirds of all world trade. The area of international sales law continues to grow as technology and development take us to a global economy. As such, the study of the CISG has become an integral component of this ever-growing area of international commercial law. The Review of the CISG is published once yearly and features articles written by prominent legal scholars in the field of international sale of goods from around the world. In addition to scholarly writings analyzing the various articles of the CISG, the book seeks to compile translations of recent decisions as well as commentaries of notable cases relating to the CISG. The Review of the CISG provides both a forum for legal discussion within the international legal community in the area of international sales law and as an authoritative source of reference for international scholars.

Full treatment is given to proprietary matters and the significant reforms which have taken place in recent years including the Sale and Supply of Goods Act 1994, and the Sale of Goods (Amendment) Act 1995. The general law of contract is dealt with as it affects the special contract of sale, but export sales materials are treated only to the extent that they illustrate delivery and payment. The paperback edition also includes a new preface designed for the student reader, covering recent developments in the sale of goods. This thorough and comprehensive book will be a valuable resource for students of commercial law as well as academics and practitioners working in the area.

In addition to this, it: fully integrates both the Unfair Commercial Practices Directive 2005 and the Consumer Credit Act 2006 into the basic 1974 Act explains how the sale of Goods Act 1979 has been modified by the 1999 Directive combines the public protection of consumers under the Enterprise Act 2002 (e.g. Office of Fair Trading) is supplemented by comprehensive e-updates on its Companion Website, keeping the content current between editions. This new book has been completely revised and updated to provide a guide to the workings of the Convention on the Contracts for the International Carriage of Goods by Road. The text takes an article by article approach, discussing the relevant English and European case law to illustrate how the courts interpret the convention in practice.

First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

This book describes how the international sales of goods have generally been ruled by either English Law or Civil Law, which has often posed problems due to different approaches regarding certain principles and institutions. It clarifies how the Vienna Convention on Contracts for the International Sale of Goods of 11th April, 1980, tried to harmonise these differences with a codification technique, typical of civil law, giving privilege to rules of civil law most of the time, but also introducing institutions from common law, that are not incompatible with civil law. It explains why the general principles of civil law and of UNIDROIT help with this goal of harmonisation, integrating the loopholes of the UN Convention on Contracts for the International Sale of Goods (CISG) during its interpretation. The work demonstrates why codification prevails over common law in the CISG most of the time, giving certitude and sophistication to this matter, which is vital for

global commerce.

The law of personal property covers a very wide spectrum of scenarios and, unfortunately, has had little detailed scrutiny of its overarching structure over the years. It is a system and can best be understood as a system. Indeed, without understanding it as a system, it becomes much more difficult to comprehend. The second edition of this acclaimed textbook continues to provide a comprehensive yet detailed coverage of the law of personal property in England and Wales. It includes transfer of legal title to chattels, the nemo dat rule, negotiable instruments and assignment of choses in action. It also looks at defective transfers of property and the resulting proprietary claims, including those contingent on tracing, the tort of conversion, bailment and security interests. By bringing together areas often scattered throughout company law, commercial law, trusts and tort textbooks, it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies. Throughout the book, concepts are explained rigorously, with reference to how they are used in commercial practice and everyday life. The new edition also includes a new chapter on secured transactions law reform, and introduces new material on the Cape Town Convention, IP rights and other intangible property. The book will be of primary interest to academics and practitioners in the area. However, it will also be of use to students studying commercial or personal property law.
