book explains the processes at work and the many unexpected influences that inform the choice of color, silhouettes, and decoration. The book documents the rise of the deluxe lingerie brand. This interest in luxury labels has led many young designers to chose lingerie as a creative outlet — conscious of fashion, but also with a clear view of their own 'lingerie world'. The book features the work of 30 lingerie designers from around the world, bringing out the individuality of each designer and providing a compelling insight into their working methods. Beautifully illustrated throughout, it presents inspirational images from the designers' collections alongside their sketches and mood boards. In this book, Pamela Powell takes a very practical approach, showing how to design and construct lingerie, sleepwear, and foundation garments. Step-by-step illustrations demonstrate the basic slopers

And show how to manipulate them into different styles. Advice is given about how to work with the specialty fabrics used in the industry including woven, knit, power stretch, and bias-cut fabrics. Specially commissioned photographs and diagrams are used to showcase construction techniques specific to lingerie including boning, elastic, and lace insertion, and how and where to use the myriad of closures available. A final chapter on embellishment shows how to add unique and personal touches to garments and apply that luxurious finish.

Patternmaking for Underwear Design 2nd Edition is a comprehensive patternmaking guide suitable for students, teachers and the industry. Step-by-step instruction is matched with superb illustrations, and all measurements are provided in both metric and Imperial scales. This book introduces

common bra patternmaking methods widely used in the industry and offers the authors own innovative bra patternmaking method entitled Shin's method. This new method includes two intermediate blocks developed using the flat patternmaking concept. Shin's method enables novice patternmakers to create various bra designs from scratch with commercial fit quality. Patternmaking for Underwear Design 2nd edition elaborates the direct bra drafting further, thus the readers whose bra size is not 34B (75B) could draft their own bra according to their body measurements. Bra grading method is also added to the 2nd edition to enable the readers to grade the bra from 34B.
