The art, science, history, and mystery of sails and sailmaking. Written in concise, layperson's language and full of photographs and personal anecdotes, this book goes step-by-step through the process of creating and using sails. Provided is a definitive look at the latest developments in sails, sailcloth, engineering, hardware, and sail trim. Also offered are case studies that illustrate which fibers, fabrics, and sails are suitable for a variety of different sailing applications, from simple dinghies and day sailors to offshore racing and cruising yachts. Sailors of all levels of interest and ability will find information they can apply to their own boats and sail choices.

Turn a run-down fiberglass boat into a first-class yacht Since it first appeared in 1991, Don Casey's This Old Boat has helped tens of thousands of sailors refurbish older fiberglass boats and has become a revered classic among boat rehabbers. This second edition is revised from first page to last with new information on electrical systems, diesel engines, refrigeration, resins, plumbing and more. Plus, more than 600 newly created illustrations enhance the book's beauty as well as its utility.

Jimmy Cornell is the undisputed authority on long distance voyaging. In his new book, he helps the would-be voyager plan their trip step by step. Aimed at those seriously contemplating an extended cruise (and those dreaming about the possibility), this book will give an idea of what is involved in developing the right strategy. Amongst many other aspects, Jimmy looks at: - World weather systems - Strategies for sailing long or short circuits in the Atlantic, Pacific and Indian Oceans - The pros and cons of different routes at different times of year (taking in account weather, timings, wind directions and strengths, likelihood of fog, icebergs, gales, etc) - The pros and cons, attractions and dangers of different routes (such as the problem of piracy) - Practicalities (repair facilities, common gear breakage on extended voyages, places to leave the boat to fly home if necessary, health considerations,

provisioning for a long trip, personal safety measures, and much more) - Jimmy's top ten list of common things that ruin a voyage Written from an international point of view, Jimmy Cornell's Blue Water Voyage Planning can help sailors from any country going to any other achieve a safe and enjoyable cruise.

(Guitar Recorded Versions). Matching guitar folio to Bonamassa's 2014 release with 11 tracks, including a cover of Hendrix's "Hey Baby (New Rising Sun)" and 10 originals: Oh Beautiful * Love Ain't a Love Song * I Gave Up Everything for You 'Cept the Blues * Trouble Town * and more.

In Voyages, Paul Jacobs takes us through his discovery of a passion for sailing, the joys of meeting and falling in love with Nancy Kaull, and the couples' experience together cruising on 36' sailboats in exotic locations all around the world with the Sunsail owners program. Paul describes the cruises with a scientist's precision, a sense of humor, and a humble perspective that will engage sailors and non-sailors alike. Nancy contributes a second perspective with detailed journal entries interspersed throughout the book. Together, the couple provides a story that's a successful fusion of a manual for travel to and bareboat sailing at numerous geographic locations, and a personal memoir, all in an interesting, informative, and inspiring work.

Guide for both cruisers and racers that takes a look at the latest materials and rigging methods and simplifies the purchase and upkeep of a proper sail inventory.
