A question-and-answer section at the end of the book contains 100 USMLE-format multiple-choice questions and detailed answer explanations.

Visual Mnemonics for Pathology uses cartoon drawings that make the material easier for you to learn with tremendous recall months later. Whether you need a fast Pathology review for your course or USMLE Step 1, Visual Mnemonics for Pathology is the fun way to study! Laurie Marbas and Erin Case, medical students at Texas Tech University Health Sciences Center, developed this series using "concept diagramming" to shorten their study time and help recall the facts. Each page is formatted with plenty of space for notes and reminders, and some students color in the drawings for better recall. Perfect for medical students -- physician assistants, nurse practitioners and related health professionals will also find Visual Mnemonics valuable.

Blueprints Clinical Procedures combines almost 300 color photos with clear, step – by – step instructions for nearly 100 commonly performed procedures. Finally, instead of lengthy searches through multiple sources, you'll be able to find ALL the procedures you need to know, collected into one handy resource. Whether performing a procedure for the very first time, or polishing your technique, Blueprints Clinical Procedures provides the vital content you need to be accurate and safe. A must – have for all health care professionals who perform procedures and an invaluable resource to use while in school and later in residency. Perfect for medical students -- -- physician assistants, nurse practitioners and related health professionals will also find Blueprints valuable.
