Principles of Water Treatment has been developed from the best selling reference work Water Treatment, 3rd edition by the same author team. It maintains the same quality writing, illustrations, and worked examples as the larger book, but in a smaller format which focuses on the treatment processes and not on the design of the facilities. Poetry. California Interest. Women's Studies. Film. "THE LIVING AIR by Masiela Lusha is an exceptional book of poems. Her works are based on formal associations, which open a unique poetic vein. Multilayered images arise in which the fragility and instability of our seemingly certain reality is questioned. By applying a poetic and often metaphorical language, her work references romanticism and symbolism, her poems want to amplify the astonishment of the spectator by creating compositions or settings that generate tranquil poetic images that leave traces and balances on the edge of recognition and alienation." -Geoffrey Gatza "When I discovered Masiela Lusha's impressive list of accomplishments in the cinematic arts, I have to say I was not surprised in the least. Ms. Lusha's poems skillfully dramatize the most ethereal of philosophical ideas, showing us what's at stake as we 'stalk the truth.' This book will invite you in, then 'release you as a learner,' subtly illuminating through its performative poetics what questions we should be asking of the world around us." -Kristina Marie Darling "We stalk the truth / As poets," writes Masiela Lusha, in what could stand as the manifesto for this remarkable book. Authoritative yet tender, sensitive yet austere and controlled, these poems in their varying stances explore truth after truth. Keats, Donne, Homer and parable all suggest themselves, yet the voice is always distinctly Masiela Lusha's, a formidable talent in contemporary American poetry." -Roger Craik "Masiela Lusha's poems are missives from inner space - heartfelt, evocative lyrics of immediate presence. 'A poet is a lonely collector,' Lusha writes, inviting readers to walk with her 'Where the streets are thin / And the world is tight around me.' THE LIVING AIR is alive with 'alphabets of experience' that celebrate the journey of our lonely (and necessary) collecting." -Tony Trigglio

MANAGEMENT, 12E includes several innovative pedagogical features to help students understand their management capabilities and learn what it's like to manage in an organization today. Each of the 19 chapters begins with an opening questionnaire that engages the reader's interest, directly connects to the topic of the chapter, and enables students to see how they respond to situations and challenges that real-life managers typically face. A New Manager Self-Test in each chapter provides students with further insight into how they would function in the real world of management. The Remember This bullet-point summaries at the end of each major chapter section give students a snapshot of the key points and concepts covered in that section. The end-of-chapter questions have been carefully revised to encourage critical thinking and application of chapter concepts, and Small Group Breakout exercises give students the opportunity to apply concepts while building teamwork skills. Ethical dilemmas, all-new end-of-chapter cases, and a fully updated set of On the Job video cases help students sharpen their diagnostic skills for management problem solving. The chapter sequence in MANAGEMENT is organized around the management functions of planning, organizing, leading, and controlling. These four functions effectively encompass management research and the characteristics of the manager's job.
