evaluation of

registries

increase 3

understanding of
patient

outcomes. For
the purposes of
this guide, a
patient registry
is an organized
system that uses
observational

collect uniform
data (clinical

policy purposes.

A registry database is a file (or files) derived from the registry.

Although registries can serve many purposes, this guide focuses on registries created for one or more of the

Online Library

Chapter 11

following

purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or

Online Library

Chapter 11

monitor safety
and harm, and/or
to measure

quality of care.

Registries are
classified
according to how
their

populations are
defined. For
example, product
registries
include patients
who have been

exposed to biopharmaceutical products or

medical devices.

Health services

registries

consist of

patients who

have had a

defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User's Guide was created by researchers affiliated with

the issues
affecting our

As a botanist,
Robin Wall
Kimmerer has
been trained to
ask questions of
nature with the
tools of

science. As a
member of the
Citizen

Potawatomi
Nation, she
embraces the
notion that
plants and
animals are our
oldest teachers.
In Braiding
Sweetgrass,
Kimmerer brings
these two lenses

of knowledge

together to take
us on “a journey

that is every
bit as mythic as
it is

scientific, as
sacred as it is
historical, as
clever as it is
wise” (Elizabeth
Gilbert).

Drawing on her
life as an

indigenous

scientist, and
as a woman,

Kimmerer shows
how other living
beings—asters
and goldenrod,
strawberries and
squash,
salamanders,
algae, and
sweetgrass—offer
us gifts and
lessons, even if

Online Library

we've forgotten
how to hear
their voices. In
reflections that
range from the
creation of
Turtle Island to
the forces that
threaten its
flourishing
today, she
circles toward a
central
argument: that

Online Library

Chapter 11

the awakening of
ecological
consciousness

requires the
acknowledgment
and celebration
of our
reciprocal
relationship
with the rest of
the living
world. For only
when we can hear
the languages of

Online Library

Chapter 11

other beings

will we be

capable of

understanding

the generosity

of the earth,

and learn to

give our own

gifts in return.
