Lydia Hamilton was a modern woman, happily in love and living in Canada ... until the nightmares. Following the death of her father, Lydia begins dreaming of places and people she doesn't know. When she closes her eyes, she sees a bloodied, severed head. The images are confusing and unclear, but she knows one thing for sure: something bad happened a long time ago. And why only now have the dreams begun? Events propel Lydia to Devon, England, to the home of the mother she never knew, where the lies of her family's past begin to reveal themselvesdating back to the sixteenth century and a woman called Elisabeth Beeton, a servant at the Court of King Henry VIII. Caught amid forces she can neither control nor understand Elisabeth's life was in danger. How is Lydia's modern life related to the life of this tragic woman from the past? Without the guidance of her father, it's hard to say, but Lydia is dedicated to solving the mystery in an effort to put an end to her night terrors and save her relationship with the man she loves. But will the truth set her free, or will the realization of her family's past actions haunt her like the ghost of a woman betrayed?

Structural Analysis is intended for use in Structural Analysis courses. It is also suitable for individuals planning a career as a structural engineer. Structural Analysis provides readers with a clear and thorough presentation of the theory and application of structural analysis as it applies to trusses, beams, and frames. Emphasis is placed on teaching students to both model and analyze a structure. Hibbeler's problem solving methodology, Procedures for Analysis, provides readers with a logical, orderly method to follow when applying theory. Teaching and Learning Experience To provide a better teaching and learning experience, for both instructors and students, this text provides: Current Material: To keep your course current and relevant, the Ninth Edition includes new discussions and a new chapter. Problem Solving: A variety of problem types, at varying levels of difficulty, stress practical situations encountered in professional practice. Visualization: The photorealistic art program is designed to help students visualize difficult concepts. Review and Student Support: A thorough end of chapter review provides students with a concise tool for reviewing chapter contents. Triple Accuracy Checking: The accuracy of the text and problem solutions has been thoroughly checked by three other parties.
