This volume examines in great detail the New Testament as contextual theology in Acts (the bridging of the different cultures as the gospel moves from Jerusalem into the world and the preaching of Paul), in the Pauline Epistles (with meticulous case studies from 1 Corinthians and Colossians), the Gospels and also Revelation (a chapter both unique and very helpful).

An enormously important book. Dean Flemming's book on contextualization stems from wider discussions in missiology, but develops the discussion through the lens of New Testament studies. Overall, the book is a tour de force and an excellent synthesis of many different fields of study; made even better by compelling application.

Winner of a 2006 Christianity Today Book Award!  
Honored as one of the "Fifteen Outstanding Books of 2005 for Mission Studies" by International Bulletin of Missionary Research From Cairo to Calcutta, from Cochabamba to Columbus, Christians are engaged in a conversation about how to speak and live the gospel in today's traditional, modern and emergent cultures. The technical term for their efforts is contextualization. Missionary theorists have pondered and written on it at length. More and more, those who do theology in the West are also trying to discover new ways of communicating and embodying the gospel for an emerging postmodern culture. But few have considered in depth how the early church contextualized the gospel. And yet the New Testament provides numerous examples. As both a crosscultural missionary and a New Testament scholar, Dean Flemming is well equipped to examine how the early church contextualized the gospel and to draw out lessons for today. By carefully sifting the New Testament evidence, Flemming uncovers the patterns and parameters of a Paul or Mark or John as they spoke the Word on target, and he brings these to bear on our contemporary missiological task. conversant with frontline thinking, this is a book that will revitalize the conversation and refresh our speaking and living the gospel in today's cultures, whether in traditional, modern or emergent contexts.

To provide a model for today's missionary efforts, Dean Flemming examines how the New Testament authors--particularly in Acts, Paul's letters and the Gospels--contextualized the gospel for particular cultures and/or communities.

Contextualization is the art of translating ideas into a particular situation, place or culture. It is fundamental to communication, which makes contextualization essential in missions. This textbook pulls together and maps the variety of evangelical approaches to contextualization. Introductory classes on contextualization and missionary preparation institutes will appreciate this valuable textbook. Contextualization in Missions will guide mission-minded Christians to an informed plan for spreading the gospel effectively. While written with a theoretical perspective, Contextualization in Missions also provides real-world examples to provoke both thought and action.

Years ago, the author had a startling realization.

Theologians and pastors have long taught on the glory of God and its central importance in the Bible.

However, because he was living in East Asia, it also dawned on the author that this sort of talk about God's glory, praising Him, and magnifying His name was simply another way of talking about honor and shame.

When the author looked at most theology and ministry-related books, he found that honor and shame seemed to be treated differently. Anthropologists talked about honor-shame, but theologians largely focused more on legal metaphors. The author could see both themes in Scripture but couldn't find help as to how to bring them together. This study was developed in order to address this gap and bring those themes together. In *One Gospel for All Nations*, Jackson Wu demonstrates that the biblical writers, while explaining the gospel, also provide us with a model for contextualization which can be applied in any culture. In the process, he highlighting various implications for both missionaries and theologians.

"Culture's influence upon Christianity is easier to discern in retrospect than in prospect. If history is our guide, one thing is sure: This age will be as syncretistic as any other? How is the gospel being contextualized in the contemporary world? To what degree are these new contextualizations syncretistic? This book attempts to answer these questions by defining and

This classic textbook brings together the meanings, proposals, and tasks involved in contextualization. Hesselgrave and Rommen explore the history of contextualization in the Bible and the Church while examining the proposals of prominent thinkers on this subject. They conclude with their own definition and approach to contextualization.

Appropriate Christianity consists of 28 chapters by 18 authors approaching contextualization in three dimensions: truth, allegiance and spiritual power. Over the years, there have been quite a number of helpful discussions of the contextualization of theological truth. Though we have been helped greatly by them, it is high time we began to deal also with allegiance and spiritual power, two additional dimensions that Jesus considered of great importance. Any adequate and appropriate treatment of the contextualization of biblical Christianity needs to deal with all three of these 2crucial dimensions. 3 For allegiance to Christ is the basis for all we do that makes us Christian, and Jesus was very much into spiritual power. If we are to be truly biblical, we must deal also with these areas.

This major statement by a leading missiologist represents a lifetime of wrestling with a topic every cross-cultural leader must address: how to adapt the universal gospel to particular settings. This comprehensive yet accessible textbook organizes contextualization, which includes "everything the church is and does," into seven dimensions. Filled with
