Oasis - Don't Look Back In Anger Lyrics | MetroLyrics

Don't Look Back is a murder thriller dressed in the tropes of the occult and the ghost story. It is cleverly constructed and neatly overdetermined, and its extensive use of red herrings will keep you guessing, even if its pedestrian solution (or series of solutions, really) might have viewers less nodding along with satisfaction than shrugging with indifference.

The cover art to the "Don't Look Back In Anger" single is a reference to The Beatles history when Ringo Starr had briefly quit the band and found flowers on his drum kit upon his return. This song shows the apparent influence by The Beatles and especially John Lennon. The piano intro was taken from Lennon's "Imagine".

The nineties was the decade when British culture reclaimed its position at the artistic centre of the world. Not since the 'Swinging Sixties' had art, comedy, fashion, film, football, literature and music interwoven into a blooming of national self-confidence. It was the decade of Lad Culture and Girl Power; of Blur vs Oasis. When fashion runways shone with British talent, Young British Artists became

household names, football was 'coming home' and British film went worldwide. From Old Labour's defeat in 1992 through to New Labour's historic landslide in 1997, Don't Look Back In Anger chronicles the Cool Britannia age when the country united through a resurgence of patriotism and a celebration of all things British. But it was also an era of false promises and misplaced trust, when the weight of substance was based on the airlessness of branding, spin and the first stirrings of celebrity culture. A decade that started with hope then ended with the death of the 'people's princess' and 9/11 - an event that redefined a new world order. Through sixty-eight voices that epitomise the decade - including Tony Blair, John Major, Noel Gallagher, Damon Albarn, Tracey Emin, Keith Allen, Meera Syal, David Baddiel, Irvine Welsh and Steve Coogan - we re-live the epic highs and crashing lows of one of the most eventful periods in British history. Today, in an age where identity dominates the national agenda, Don't Look Back In Anger is a necessary and compelling historical document.

In Don't Look Back, Dabney Stuart recalls central people and emotions from his past and integrates them into a search for personal wholeness in the present. He honors a network of family members, calling up the richness of their lives and making room for them in his. There is his aloof and coldly majestic grandmother, a salty, aged grandfather, variations on a dream girl, and images of a mother, wives, father, sons, and an elusive brother. Undergirding these poems is an implied chronology of psychological growth: from floating prenatal consciousness, through

adolescent jealousy and repression, to adult acceptance and grief. Although the autobiographical aspect of Stuart's poems anchors them in a drama of generations, it also serves as a springboard into thoughtful and profound searchings. In the five-part poem, "The Birds," the poet ponders the flow of events in life and the intangible forces that influence that flow. The birds of the title represent, and are somehow intimate with, these forces. Although not inclined to divulge them, the birds have answers to human question about pain, loss and regeneration. In such a time, in April, you could almost imagine a child standing under the pines, shadowed. He could lift his hand to them and open it, releasing among their needles an affable light, a flying instant which might nest in them, a birthday covenant of impossible flight The poems in Don't Look Back are ambitious, complex meditation rendered with grace and clarity.
