Connections between topics, then apply this to exam-style questions at the end of each chapter. Get exam-ready with confidence: Differentiated questions including 'Bronze, Silver, Gold' in each chapter, and a mixed problem-solving section for each book, will guide and help you to develop the skills you need for your exams. Designed to be used flexibly, the practice books are fully mapped to the scheme of work and textbooks so you can use them seamlessly in and out of the classroom and all year round. Use them lesson by lesson, topic by topic, for homework, revision and more - the choice is yours. Great value practice materials that are cheaper than photocopying, saves more time than independently sourcing questions and answers, and are all in one place.

Develop and assess your students' knowledge and skills throughout A level with worked examples, practical assessment guidance and differentiated end of topic questions in this updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Chemistry specification, this revised textbook will: - Identify the level of your students' understanding with diagnostic questions and a summary of prior knowledge at the start of the Student Book. - Provide support for all 16 required practicals with various activities and questions, along with a 'Practical' chapter covering procedural understanding and key ideas related to measurement. - Improve mathematical skills with plenty of worked examples, including notes on methods to help explain the strategies for solving each type of problem. - Offer plenty of practice with 'Test yourself' questions to help students assess their understanding and measure progress. - Encourage further reading and study with short passages of extension material. - Develop understanding with free online access to 'Test yourself' answers and an extended glossary.

This Student Book provides full support for year two of an Edexcel A Level course. Written by a well recognised author team of experienced teachers, this book supports the major changes in assessment style. Using clear and concise explanations, and abundant worked examples, it covers all the pure, mechanics and statistics content needed.

Help students to develop their knowledge and build essential skills with practical assessment guidance and plenty of support for the new mathematical requirements in this updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Physics specification, this revised textbook will:

- Support practical assessment with practical skill summaries throughout.
- Provide support for all 16 required practicals with detailed explanations, data and exam style questions for students to answer.
- Build understanding and knowledge with a variety of questions to engage and challenge students throughout the course: prior knowledge, worked examples, 'Test yourself' and exam practice questions.
- Aid mathematical understanding and application with worked examples of calculations and a dedicated 'Maths for Physics' chapter.
- Develop understanding and enable self- and peer-assessment with free online access to 'Test yourself' answers.

Exam Board: Edexcel Level: AS/A-level Subject: Business First Teaching: September 2015 First Exam: June 2017 Topics are broken down to short, clear chapters, that are all structured in the same way, so students can build their understanding with ease.

- Covers each syllabus area in the detail you need, with exercises that have enough depth and variety to give full class and homework coverage
- Brings the business world into the classroom with real examples used extensively throughout the text, in extra cases and in end-of-chapter exercises
- Features to help reinforce student understanding - in every chapter there's Real Business, an Evaluation and Logic Chain, but also the brand new '5 Whys and a How' which will help students tackle exam questions

Exam Board: Edexcel Level: AS/A-level Subject: Mathematics First Teaching: September 2017 First Exam: June 2019 Endorsed for Edexcel Build your students' confidence in applying mathematical techniques to solving problems with resources developed with leading Assessment Consultant Keith Pledger and Mathematics in Education and Industry (MEI).

- Build reasoning and problem-solving skills with practice questions and well-structured exercises that build skills and mathematical techniques.
- Develop a fuller understanding of mathematical concepts with real world examples that help build connections between topics and develop mathematical modelling skills.
- Address misconceptions and develop problem-solving with annotated worked examples.
- Supports students at every stage of their learning with graduated exercises that build understanding and measure progress.
- Provide clear paths of progression that combine pure and applied maths into a coherent whole.
- Reinforce Year 1 content with short review chapters - Year 2 only.

Written by experienced author Mike Benn, this Student Guide for Physics:

- Identifies the key content you need to know with a concise summary of topics examined in the A-level specifications
- Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the
