Flightpath is the definitive course for pilots and Air Traffic Controllers who need an ICAO4 level of English to work in the industry. Written by Philip Shawcross, one of the world's leading Aviation English experts, and reviewed by a panel of aviation English specialists, this course offers a thorough grounding in the range of communication skills needed by both pilots and Air Traffic Control Officers (ATCOs) aiming to reach ICAO4 level or above. The Teacher's Book is a complete manual and subject matter reference book for Aviation English teachers of any level of experience, with detailed notes and instructions for each unit. The teacher's notes provide further support and will help the trainer customise the course for pilots, ATCOs and mixed classes.

Flightpath is the definitive course for pilots and Air Traffic Controllers who need an ICAO4 level of English to work in the industry. Flightpath is the only Aviation English course to offer a thorough grounding in the full range of communication skills needed by aviation professionals to communicate in non-routine situations. With regular focus on ICAO criteria, learners are given full support in reaching industry standards, including case studies, analysis of their own communication skills, exposure to authentic in-flight communication, and communicative tasks. Flightpath is the most accurate preparation course available for any ICAO4 language test, and includes authentic industry training video. Flightpath has been reviewed and endorsed by a panel of leading aviation communication and safety professionals.

An authority on pilot evasion, escape, and survival recounts extraordinary adventures that took place in Holland, Belgium, France, Spain, Italy, Albania, and Greece during World War II.

Aviation security expert Philip Baum delves into the archives to reveal the stories behind the most astonishing and shocking crimes in aviation history, calling on real-life testimonies from hijackers, crew members, passengers, and politicians. The human stories behind the criminal attacks that have plagued aviation since 1911 are detailed in this authoritative and thrilling account of aviation security history, from the legendary hijacks by left-wing and Palestinian groups of the 20th century, to the more recent suicide attacks carried out by fundamentalists and the psychologically disturbed.

From the earliest experimental flights to the latest technological advances in design, a richly illustrated, chronologically arranged study of world aviation provides a close-up look at 650 different aircraft and profiles the inventors, engineers, and pilots who transformed military and civilian flight.
