Fascist gangs used intimidation and terror to oust elected officials in northern Italy. Many Italians accepted these actions because they, too, had lost faith in constitutional government. In 1922, the Fascists made a bid for power. At a rally in Naples, they announced their intention to go to Rome to demand that the government make changes.

Fascism in Italy

Italian Fascism justified its adoption of antisemitic laws in 1938 by claiming that Italy was fulfilling the Christian religious mandate of the Catholic Church that had been initiated by Pope Innocent III in the Fourth Lateran Council of 1215, whereby the Pope issued strict regulation of the life of Jews in Christian lands. Jews were prohibited from holding any public office that would give them power over Christians and Jews were required to wear distinctive clothing to distinguish them ...

PULITZER PRIZE WINNER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE From National Book Award finalist David I. Kertzer comes the gripping story of Pope Pius XI's secret relations with Italian dictator Benito Mussolini. This groundbreaking work, based on seven years of research in the Vatican and Fascist archives, including reports from Mussolini's spies inside the highest levels of the Church, will forever change our understanding of the Vatican's role in the rise of Fascism in Europe. The Pope and Mussolini tells the story of two men who came to power in 1922, and together changed the course of twentieth-century history. In most respects, they could not have been more different. One was scholarly and devout, the other thuggish and profane. Yet Pius XI and "Il Duce" had many things in common. They shared a distrust of democracy and a visceral hatred of Communism. Both were prone to sudden fits of temper and were fiercely protective of the prerogatives of their office. ("We have many interests to protect," the Pope declared, soon after Mussolini seized control of the government in 1922.) Each relied on the other to consolidate his power and achieve his political goals. In a challenge to the conventional history of this period, in which a heroic Church does battle with the Fascist regime, Kertzer shows how Pius XI played a crucial role in making Mussolini's dictatorship possible and keeping him in power. In exchange for Vatican support, Mussolini restored many of the privileges the Church had lost and gave in to the pope's demands that the police enforce Catholic morality. Yet in the last years of his life—as the Italian dictator grew ever closer to Hitler—the pontiff's faith in this treacherous bargain started to waver. With his health failing, he began to lash out at the Duce and threatened to denounce Mussolini's anti-Semitic racial laws before it was too late. Horrified by the threat to the Church-Fascist alliance, the Vatican's inner circle, including the future Pope Pius XII, struggled to restrain the headstrong pope from destroying a partnership that had served both the Church and the dictator for many years. The Pope and Mussolini brims with memorable portraits of the men who helped enable the reign of Fascism in Italy: Father Pietro Tacchi Venturi, Pius's personal emissary to the dictator, a wily anti-Semite known as Mussolini's Rasputin; Victor Emmanuel III, the king of Italy, an object of widespread derision who lacked the stature—literally and figuratively—to stand up to the domineering Duce; and Cardinal Secretary of State Eugenio Pacelli, whose political skills and ambition made him Mussolini's most powerful ally inside the Vatican, and positioned him to succeed the pontiff as the controversial Pius XII, whose actions during World War II would be subject for debate for decades to come. With the recent opening of the Vatican archives covering Pius XI's papacy, the full story of the Pope's complex relationship with his Fascist partner can finally be told. Vivid, dramatic, with surprises at every turn, *The Pope and Mussolini* is history writ large and with the lightning hand of truth.

In this fascinating look at the unique conjuncture of factors surrounding Il Duce's seizure of power, eminent historian Donald Sassoon traces the political circumstances that sent Italy on a collision course with the most destructive war of the century.

Ordinary Violence in Mussolini's Italy reveals the centrality of violence to Fascist rule, arguing that the Mussolini regime projected its coercive power deeply and diffusely into society through confinement, imprisonment, low-level physical assaults, economic deprivations, intimidation, discrimination, and other everyday forms of coercion. Fascist repression was thus more intense and ideological than previously thought and even shared some important similarities with Nazi and Soviet terror.

Where To Download Fascism In Italy Note Taking Study Guide

"Bibliographical note": p. 205.

The early twentieth century in Italy was a crucial period in its history. Mussolini and Fascism surveys all the important issues and topics of the period including the origins and rise of Fascism, Mussolini as Prime Minister and Dictator, the Totalitarian state, foreign policy and the Second World War. It also examines how Italian Fascism compared to other inter-war dictatorships.

Based on a lifetime's worth of research, esteemed historian Robert Paxton explores what fascism is and how it has come to have a lasting and continued impact on our history. In the concluding section of his authoritative book, *The Anatomy of Fascism*, Paxton makes the convincing and radical case that existing definitions of the popular, nationalist, and conservative political view are lacking, and offers up his own brilliant explication—drawn from concrete historical actions—thus transforming our understanding of this dangerous ideology and of why it takes hold when and where it does. A Vintage Shorts Selection. An ebook short.

With *Mussolini's Italy*, R.J.B. Bosworth—the foremost scholar on the subject writing in English—vividly brings to life the period in which Italians participated in one of the twentieth century's most notorious political experiments. Il Duce's Fascists were the original totalitarians, espousing a cult of violence and obedience that inspired many other dictatorships, Hitler's first among them. But as Bosworth reveals, many Italians resisted its ideology, finding ways, ingenious and varied, to keep Fascism from taking hold as deeply as it did in Germany. A sweeping chronicle of struggle in terrible times, this is the definitive account of Italy's darkest hour.

'The Pathfinder History' series is designed to help students make the transition from GCSE to A level. Each book provides the student with a structured route through the A level process and develops the skills needed for examination success.
