extensive research, quick design sketching, fabric manipulation, and draping experimentation. Great original designs and illustrations by the author as well as design sketch samples by established designers are provided throughout. There are samples of sketchbooks from professional and emerging fashion artists. The book provides some insight from established fashion and accessories designers on the highlights and challenges of the creative process. It is a great professional reference for techniques in the portfolio development. A beautiful but practical book that provides useful techniques and helps the reader get inside the mind of the designer.

For anyone who loves fashion, this is a dream book: a vast collection of original sketches by 50 of the world's most celebrated fashion designers. Style maven Laird Borrelli has brought together 250 stunning sketches, designs, and concepts by a galaxy of prominent designers from every international fashion capital. Top names like Christian Lacroix and Karl Lagerfeld join hot up-and-comers such as Roksanda Ilincic and Yoshikazu Yamagata in a magnificent and unprecedented gallery of distinctive signature illustration styles, unique creative thought processes, and work in a huge variety of media. Lively text introduces each designer, and an utterly invaluable reference section in back provides contact details for each designer's label. Fashion illustration has never looked so good.

Fashion Drawing is a comprehensive, practical guide to fashion drawing for students of fashion design. The book covers men, women and children, starting with how to draw the fashion figure and continuing with garments and garment details, before teaching the reader how to render various types of fabric. This second edition has been updated to include more details on how to draw flats as well as rendering knits, denim, pile weaves and fur. Tips are also included throughout on finishing hand-rendered drawings in Adobe Illustrator and Photoshop. Contemporary in its approach and

Read Book Fashion Illustration Inspiration And Technique

offering step-by-step guidance, the book emphasizes drawing as an integral function of the garment design process. Students learn how to manipulate various garment details with consideration for scale, construction and color as well as keeping in mind the profile of the potential customer. Illustrated throughout with a wide range of images from illustrators and designers working in today's market, Fashion Drawing provides both the inspiration and the instruction necessary to allow students to develop their own illustration style.

Learn how to draw posed figures for fashion illustration This comprehensive reference provides hands-on techniques for created posed figures for fashion illustration. The first section illustrates various examples of nude and semi-nude poses (male and female). Later chapters illustrate the same poses wearing sportswear, sleepwear, dresses, suits, trousers, and casual and evening wear. The poses in each chapter are organized to show a progression including seated model (crossed legs, straight legs, seated on chair, seated on the floor); standing model (frontal view, three-quarter view, side-view from the back with crossed legs and straight legs); and moving model (running, walking, dancing). Each chapter begins with an introduction which is followed by images with detailed explanatory captions. With a focus on shape and form, the content covers marker and pencil techniques for a complete range of illustrated poses.

The latest in our essential Encyclopedia of Art series puts the spotlight on the catwalk to provide a practical compendium of all-media fashion design techniques. Suitable for beginners as well as experienced illustrators, this book takes readers step-by-step through precise techniques used by professionals. Learn to depict fabric textures and folds, work with color and tone to create the illusion of body forms, and transform real-life model poses into stylized figures. Containing a visual gallery of over 500 illustrations to clarify each method described, this book is an essential guide to
