This book, based on authoritative sources and reports, links environmental communication to different fields of compelence: environment, sustainability, journalism, mass media, architecture, design, art, green and circular economy, public administration, big event management and legal language. The manual offers a new, scientifically based perspective, and adopts a theoretical-practical approach, providing readers with qualified best practices, case studies and 22 exclusive interviews with professionals. A fluent style of writing leads the readers through specific details, enriching their knowledge without being boring. As such it is an excellent preparatory and interdisciplinary academic tool intended for university students, scholars, professionals, and anyone who would like to know more on the matter.

Lillian Too is the world's leading authority on feng shui and the author of several bestsellers. Her latest offering is a colorful guide to revitalizing the home. It presents 168 surefire strategies for eliminating excess baggage, renewing energy, and generating new pathways within a house and mind.

Describes the principles and advantages of feng shui, the Chinese art of creating a balance between a person and his surroundings by following rules of placement in both interior and exterior environments

Simons, a feng shui master and astrologer, teaches readers how to feng shui their homes in a clear, step-by-step fashion and gives personalized advice based on readers' dates of birth. Simons presents not only the popular eight-point method but also divining techniques and other authentic Chinese methods that make analysis more complete. Illustrations.

"How to drastically improve your life by basically moving stuff around. Honest"--Cover.

"This is a book about the making of cities and the buildings that compose them. It is about the conditions under which an architect engaged in those activities now works, how those conditions evolved and why they are changing. It is about the qualities of life that are threatened by the ways cities are built at the beginning of the 21st century and intelligent response to those threats. It is about why the city planning ideas and the cultural cuisinart that came in the box with modern architecture are a lingering menace." -- from Global City Blue. Much of the architecture and town planning of the past fifty years has been based on an unsubstantiated optimism about the promise of modernity. In our rush to embrace the future, we invented new ways of building that rejected the past and sent people headlong into a placeless limbo where they are insulated from each other and cut off from such basic experiences of location as the weather and the time of day. Despite calamitous results, many architects and planners remain enamored of the modernist ideals that underlie these changes. In Global City Blues, renowned architect Daniel Solomon presents a perceptive overview and an insightful assessment of how the power and seductiveness of modernist ideals led us astray. Through a series of independent but linked essays, he takes the reader on a personal picaresque, introducing us to people, places, and ideas that have shaped thinking about planning and building and that laid the foundation for his beliefs about the world we live in and the kind of world we should be making. As an alternative, Daniel Solomon discusses the ideas and precepts of New Urbanism, a reform movement he helped found that has risen to prominence in the past decade. New Urbanism offers a vital counterbalance to the forces of sprawl, urban disintegration, and placelessness that have so transformed the contemporary landscape. Global City Blues is a fresh and original look at what the history of urban form can teach us about creating built environments that work for people.

Explains the basic principles of feng shui, including how to evaluate the internal and external environments, how to set up a geomantic chart and relate that to a floor plan, and how to plan and choose a dwelling, furniture, and space.

A Singapore feng shui consultant who specializes in analyzing crime scenes, Mr. C. F. Wong follows a mystery involving an enigmatic young woman and a deadly psychic reading on a case that leads him to Sydney, Australia, and its Opera House, a building renowned for its appalling feng shui.

Free your mind and become the person you want to be Like physical clutter in your home, mental clutter slowly fills up your head, making it hard to think and act clearly. This includes attitudes learned as a child and bad habits that develop over time, both made worse by a self-destructive cycle of judging the future by the negative experiences of the past. Luckily, it's simple to de-junk your mind. By assessing your attitudes, beliefs and habits, you can easily identify the ones that are holding you back. This book will empower you with:
- Exercises to gain confidence and let go of unwanted feelings
- Strategies for replacing negative thought patterns with positive thinking
- Communication techniques that will help you speak up and achieve your goals
- Ways to keep things in perspective and look for solutions rather than problems
De-junk Your Mind is packed with practical exercises and a big dose of tough love - it's time to take the plunge and change life for the better. Once you shed your mental clutter, you will feel lighter, more energetic and ready to seize each new day.

Describes the principles of feng-shui, the ancient Chinese art of determining the hidden currents of the earth and locating and furnishing buildings in accord with them
