This book attempts to identify change and continuity in PRC grand strategy, and the extent to which Chinese imperial history complicates PRC global outreach in the Xi Jinping era. Empires convey the wish to make the world a better place – even in the midst of oppression – and are eschatological in their rhetoric. However, empires that last longer have been more pragmatic in their grand strategy; sometimes appropriating the aura of past golden ages, and at other times learning from the mistakes of their predecessors. To date, Chinese strategic thinkers are preoccupied with learning lessons from the disintegration of the USSR and fascinated by the secrets of American power. Interdisciplinary in its reach, analysing grand strategy through both rhetoric and praxis, this book unpacks the Chinese world view through critical examination of the latest history textbooks currently in use in PRC middle schools. It also brings new evidence to bear on the debate in the West about Chinese strategic culture. Finally, it compares historical Japanese OFDI patterns with China in order to understand what makes the Chinese economy unique. China 's Grand Strategy Under Xi Jinping is aimed towards students and scholars of history, international business and wider Chinese studies.

Many citizens from Basel in Switzerland were disgusted when they heard that their city canton's government had selected Syngenta as the main sponsor of Basel's appearance at the 2015 World Fair in Milan. The multinational agrochemical and agricultural biotechnology corporation stands for toxic pesticides, genetically engineered seeds, patents on plants and industrial agriculture, a main culprit of global warming. Soon after the announcement, NGO alliance MultiWatch hosted a two-day conference; it also organized Basel's first 'March against Monsanto and Syngenta'. This book is a compilation of the team's findings after one year of watching Syngenta, and also includes contributions by Vandana Shiva

and other guest authors supporting the campaigners. The bottom line is that there is no room for this multinational corporation in sustainable and ecological agriculture.

Relations between the EU and East Asia have consistently expanded in recent years, particularly between the EU and Japan. Against the background of negotiations on an economic and strategic partnership agreement, the EU – Japan relationship is set to become the single most comprehensive ‘ region-to-state ’ relationship the world has known today, accounting for more than a third of world GDP and a combined population of more than 600 million people. This book addresses the potential role of the EU, in cooperation with Japan, to craft a stable and prosperous mode of governance in the Asian region. In today ’ s globalized world seemingly defined by waxing Chinese power and waning American power, the book reflects the lack of appreciation for an EU-Japan concert in maintaining and developing multilateral principles. It aims towards fortifying this relationship by acknowledging that in order to enhance the credibility and capabilities of such an alliance, it is necessary to take stock of where the partnership stands today, what kind of obstacles still need to be overcome and which options have been left untouched. By introducing state-of-the-art empirical research in multiple fields, this book will be of key interest to students and scholars of international relations, comparative regionalism, the European Union and Japanese politics.

This insightful book explores why implementation of environmental law is too often ineffective in achieving effective environmental governance. It provides careful analysis and innovative proposals to help improve the practical effectiveness of legal i

Climate change control has risen to the top of the international agenda. Failed efforts, centred in the United Nations, to allocate responsibility have resulted in a challenge now reaching crisis stage. John J. Kirton and Ella Kokotsis analyse the generation and effectiveness of four decades of intergovernmental regimes for controlling global climate change. Informed by international relations theories and critical of the prevailing UN approach, Kirton and Kokotsis trace the global governance of climate change from its 1970s origins to the present and demonstrate the effectiveness of the plurilateral summit alternative grounded in the G7/8 and the G20. Topics covered include: - G7/8 and UN competition and convergence on governing climate change - Kyoto obligations and the post-Kyoto regime - The role of the G7/8 and G20 in generating a regime beyond Kyoto - Projections of and prescriptions for an effective global climate change control regime for the twenty-first century. This topical book synthesizes a rich array of empirical data, including new interview and documentary material about G7/8 and G20 governance of climate change, and makes a valuable contribution to understanding the dynamics of governing climate change. It will appeal to scholars, researchers, and policy makers interested in the dynamics behind governance processes within the intergovernmental realm.

Understanding Global Poverty introduces students to the study and analysis of poverty, helping them to understand why it is pervasive across human societies, and how it can be reduced through proven policy solutions. The book uses the capabilities and human development approach to foreground the human aspects of poverty, keeping the voices, experiences, and needs of the world 's poor central to the analysis. Starting with definitions and measurement, the book goes on to explore the causes of poverty and how poverty reduction programs and policy have responded in practice. The book also reflects on the ethics of why we should work to reduce poverty and what actions readers themselves can take. This

new edition has been revised and updated throughout, featuring:

- a new chapter on migration and refugees
- additional international examples, including material on Mexico, Covid-19 in global perspective, and South – South development initiatives
- information on careers in international development
- insights into how various forms of social difference, including race, ethnicity, social class, gender, and sexuality relate to poverty

Fully interdisciplinary in approach, the book is also supplemented with case studies, discussion questions, and further reading suggestions in order to support learning. Perfect as an introductory textbook for students across sociology, global development, political science, anthropology, public health, and economics, *Understanding Global Poverty* will also be a valuable resource to policy makers and development practitioners.

Within the developed world, airlines have responded to the advice of advocates for corporate social and environmental responsibility (CSER) to use the intertwined dimensions of economics, society and environment to guide their business activities. However, disingenuously, the advocates and regulators frequently pay insufficient attention to the economics which are critical to airlines' sustainability and profits. This omission pushes airlines into the unprofitable domain of CSERplus. The author identifies alleged market inefficiencies and failures, examines CSERplus impacts on international competition and assesses the unintended consequences of the regulations. She also provides innovative ideas for future-proofing airlines. *Clipped Wings* is a treatise for business professionals featuring academic research as well as industry anecdotes. It is written for airlines (including their owners, employees, passengers and suppliers), airports, trade associations, policy makers, educators, students, consultants, CSERplus specialists and anyone who is concerned about the future of competitive airlines.

Finalist for the 2017 International Book Awards Runner-up for the 2016 New England Book Festival Award Finalist for the 2015 Chautauqua Prize (longlist) Sonia Faruqi, an Ivy League graduate and investment banker, had no idea that the night she arrived at the doorstep of a dairy farm would mark the beginning of a journey that would ultimately wind all the way around the world. Instead of turning away from the animal cruelty she came to witness, Sonia made the most courageous decision of her life: a commitment to change things. Driven by impulsive will and searing passion, Sonia left behind everything she knew and loved to search the planet for solutions to benefit animals, human health, and the environment. Over the course of living with farmers, hitchhiking with strangers, and risking her life, she developed surprising insights and solutions—both about the food industry and herself. Lively and heartfelt, Sonia takes readers on an unforgettable adventure from top-secret egg warehouses in Canada to dairy feedlots in the United States, from farm offices in Mexico to lush pastures in Belize, from flocks of village chickens in Indonesia to factory farms in Malaysia. Revelatory in scope, Project Animal Farm
