Political globalisation refers to the amount of political co-operation that exists between different countries. This ties in with the belief that “umbrella” global organisations are better placed than individual states to prevent conflict. The League of Nations established after WW1 was certainly one of the pioneers in this.

Politics of Globalization presents an up-to-date perspective on the kaleidoscopic politics of globalization. The authors analyze the existing definitions of capitalism and argue that globalization and the consequent growing multi-polarity in world politics is not a crisis but a proliferation of capitalisms. This network of capitalisms becomes the framework of the politics of the new globalization. This compilation by social scientists across the globe is an empirical and theoretical exploration of the political responses to

U.S. policies that can be changed. William Sites develops the concept of primitive globalization, identifying a pattern of reactive politics--ad hoc measures to subsidize business, displace the urban poor, and dismantle the welfare state--that uproots social actors (corporations, citizens, urban residents) and facilitates a damaging, short-term-oriented type of international integration. In light of this theory, Sites examines the transformation of New York City since the 1970s, focusing on the logic of political action at national, local, and neighborhood levels. In the process, the
