Health Promotion Throughout the Life Span, 9e: Amazon.co ...

Health Promotion Throughout the Life Span. Health promotion is a concept and a process that extends through-out the life span. Studies have shown that the health of a child can be affected either positively or negatively by the health practices of the mother during the prenatal period. Therefore, health pro-motion starts before birth and extends through childhood, adult-hood, and old age.

Up to date and easy to read, this textbook provides comprehensive coverage of all major concepts of health promotion and disease prevention. It highlights growth and development throughout the life span, emphasizing normal development as well as the specific problems and health promotion issues common to each stage. All population groups are addressed with separate chapters for individuals, families, and communities. -- Provided by publisher.

This comprehensive text provides the most current and accurate health promotion and disease prevention information available. The book addresses health promotion for all ages and all population groups - individuals, families, and communities. It includes extensive coverage of growth and development throughout the life span, with an emphasis on normal development as well as the specific problems and

health promotion issues common to each stage. A complete unit is devoted to health promotion interventions. It also offers a unique assessment framework based on Gordon's Functional Health Patterns to provide consistency in presentation and an approach in line with the promotion of health. Extensive coverage of growth and development throughout all stages of the life span. A unit on specific interventions for health promotion. Addresses health promotion for all population groups - individual, family, and the community. Incorporates Case Studies that depict actual clinical situations to give students a "real-life" perspective. Innovative Practice examples highlight unique and creative health promotion programs. Summarizes specific clinical interventions in Health Teaching boxes to provide students with "how-to" nursing actions. Think About It clinical scenarios provide critical thinking questions to help readers grasp important concepts. Multicultural Awareness boxes present cultural perspectives important to care planning. Introduces significant issues, trends, and controversies in health promotion through Hot Topics boxes to engage students in critical discussion and debate about these topics. Research Highlights emphasize current research efforts and research opportunities in health promotion. A new Study Questions section (with answers and rationales) helps you review and assess your understanding of chapter content. Care Plans are presented in a consistent format: Nursing Diagnosis, Defining Characteristics, Related Factors, Expected Outcomes, and Interventions. Healthy People 2010 boxes highlight current national health promotion priorities. A new full-color design helps to highlight important features and content. A new companion Evolve website offers case studies with questions and answers, WebLinks, content updates, and a Glossary with search capability to enhance your learning experience.

Promote health and wellness for all ages and population groups! Health Promotion Throughout the Life Span, 9th Edition provides a comprehensive guide to leading health promotion concepts, from assessment to interventions to application. Its lifespan approach addresses patients' unique needs with case studies and care plans, with an assessment framework based on Gordon's Functional Health Patterns. New to this edition is expanded coverage of genomics and QSEN competencies. Written by nursing experts Carole Edelman and Elizabeth Kudzma, this bestselling text covers all the latest research and trends in health promotion and disease prevention. Separate chapters on population groups - the individual, family, and community - highlight the unique aspects of assessment and health promotion for each group. Coverage of growth and development helps you apply health promotion concepts to each age and each stage of development through the lifespan. Case studies present realistic situations with questions asking you to apply key concepts, and care plans include nursing diagnoses, defining characteristics, related factors, expected outcomes, and interventions. Quality and Safety Scenario boxes focus on QSEN-related competencies with examples of health promotion. Innovative Practice boxes outline unique and creative health promotion programs and projects currently being implemented. Healthy People 2020 boxes present goals and objectives relating to national health issues and priorities. Research for Evidence-Based Practice boxes summarize current health-promotion studies showing the links between research, theory, and practice. Diversity Awareness boxes address cultural perspectives relating to planning care. Hot Topics boxes introduce significant issues, trends, and controversies in health promotion. Think About It clinical scenarios open each chapter, and include questions to encourage critical thinking. NEW! An increased focus on genomics reflects scientific evidence supporting the use of genetic tests and family health history to guide public health interventions. NEW! Expanded discussion of QSEN competencies is included, as related to health promotion. NEW! Guidelines and recommendations are included from the latest Guide to Clinical Preventive Services from the U.S. Preventive Services Task Force. NEW! The latest information about the Affordable Care Act is included. NEW! Updated photos reflect the latest in health promotion and disease prevention.

Master health promotion for all ages and population groups! Health Promotion Throughout the Life Span, 10th Edition provides comprehensive coverage of leading health promotion concepts from assessment to interventions to application. Its lifespan approach addresses patients' unique needs with case studies and care plans presented within an assessment framework based on Gordon's Functional Health Patterns. Addressing each age and stage of development, this market-leading text covers the latest research and trends in health promotion and disease prevention for diverse population groups. Coverage of growth and development addresses health promotion concepts for each age and each stage of development through the lifespan. Case studies present realistic situations with questions that challenge you to apply key concepts to further develop clinical judgment. Think About It clinical scenarios at the beginning of each chapter include questions to encourage clinical judgment. Research for Evidence-Based Practice boxes summarize current health-promotion studies showing the links between research, theory, and practice. Hot Topics boxes introduce significant issues, trends, and controversies in health promotion. Separate chapters on population groups - the individual, family, and community - highlight the unique aspects of assessment and health promotion for each group. Quality and Safety Scenario boxes focus on QSEN-related competencies with examples of health promotion. Innovative Practice boxes outline unique and creative health promotion programs and projects currently being implemented. Health and Social Determinants/Health Equity boxes address cultural perspectives relating to planning care. NEW! Greater emphasis on health equity highlights the need to make health promotion accessible to all. NEW! Increased focus on diversity and inclusion better reflects the communities being served. NEW! Veteran's health content is incorporated throughout, as appropriate. NEW! Discussions of Healthy People 2030 initiatives and objectives address national health issues and priorities. NEW! Updated diagnosis terminology includes ICD-10 diagnoses or patient problems. NEW! Affordable Care Act references are more general to reflect changing politics.

Learn the ins and outs of health promotion and disease prevention in Canada with Edelman and Kudzma's Canadian Health Promotion Throughout the Lifespan. This all-new, comprehensive text grounds you in the

Canadian health objectives for promotion and prevention which aims to improve the health of the entire population and to reduce health inequities among population groups. Among the text's chapters you'll find extensive coverage of growth and development throughout the life span – including coverage of the normal aspects, the unique problems, and the health promotion needs that are found in each age and stage of development. Separate chapters discuss each population group – the individual, the family, and the community – and highlight the unique aspects of caring for each of these groups. In all, this comprehensive and culturally relevant text provides all the tools needed to stay up on the latest research and topics in Canadian health promotion.

This book provides introductory coverage of growth and development throughout the lifespan. The content emphasizes normal aspects as well as the unique problems and health promotion needs of each age and stage of development. It features a strong health promotion theme structured around Healthy People 2020 objectives. Lifespan coverage from prenatal development to death helps students integrate concepts related to normal changes in each stage of the life cycle. Coverage of current research and trends in health care provide readers with the most up-to-date, accurate information. Health promotion and disease prevention, including Healthy People 2020 objectives, are highlighted throughout the book. Cultural content is highlighted throughout the book and in new Chapter 3: Cultural Considerations in Health Care to encourage students to consider cultural implications at every stage of development. Separate chapter on advanced old age and geriatrics (Chapter 14) discuss the theories, physiological changes, and psychological aspects of aging; health promotion and maintenance; and the role of health care providers in caring for the geriatric patient. All of this helps students understand how to maintain quality of life and promote health in advanced old age. Teaching techniques for every developmental stage are part of a consistent chapter format and provide age-appropriate patient education tips. Consistent chapter organization for each stage of growth and development makes information easy to access. Critical Thinking scenarios and questions appear at the end of each chapter to help students consider all variables when planning care across the lifespan. Student learning features include Objectives, Key Terms, Key Points, and Review Questions. Appendix A includes the FDA's Recommended Child and Adult Immunization Schedules, providing essential health promotion information. NEW Appendix B provides a Multilingual Glossary of Symptoms to enhance students' awareness of culturally sensitive care. Glossary includes definitions of Key Terms and additional terms help students review concepts and terminology at a glance. Bibliography is organized by chapter at the end of the book to facilitate additional research and study.
