For Indonesia, the presidential and parliamentary elections taking place in April will be a key event in 2019. The crisis of multiculturalism in the West and the failure of the Arab uprisings in the Middle East have pushed the question of how to live peacefully within a diverse society to the forefront of global discussion. Against this backdrop, Indonesia has taken on a particular importance: with a population of 265 million people (87.7 percent of whom are Muslim), Indonesia is both the largest Muslim-majority country in the world and the third-largest democracy. In light of its return to electoral democracy from the authoritarianism of the former New Order regime, some analysts have argued that Indonesia offers clear proof of the compatibility of Islam and

democracy. Skeptics argue, however, that the growing religious intolerance that has marred the country's political transition discredits any claim of the country to democratic exemplarity. Based on a twenty-month project carried out in several regions of Indonesia, *Indonesian Pluralities: Islam, Citizenship, and Democracy* shows that, in assessing the quality and dynamics of democracy and citizenship in Indonesia today, we must examine not only elections and official politics, but also the less formal, yet more pervasive, processes of social recognition at work in this deeply plural society. The contributors demonstrate that, in fact, citizen ethics are not static discourses but living traditions that co-evolve in relation to broader patterns of politics, gender, religious resurgence, and ethnicity in society. *Indonesian Pluralities* offers important insights on the state of Indonesian politics and society

more than twenty years after its return to democracy. It will appeal to political scholars, public analysts, and those interested in Islam, Southeast Asia, citizenship, and peace and conflict studies around the world. Contributors: Robert W. The core argument of this book is that citizenship is produced and practiced through movements against injustice. These take the shape of struggles—by people at the grass-roots level and middle classes and their representing organisations and activists—for cultural recognition, social and economic justice, and popular representation. Such popular struggles in Indonesia have largely ended up engaging with the state through both discursive and non-

discursive processes. While the state is a common focal point, these struggles are fragmented across different sectors and subject positions. Developing chains of solidarity among fragments of struggles is highly important, yet attempts at bridging fragmentation leave much to be desired. The character and fragmentation of popular struggles reflects the diversity of injustices and subject positions in society, but is also shaped by political dynamics. The struggle for citizenship and the historical development of democracy in Indonesia are closely interwoven. The inability to bridge fragmentation among citizenship struggles mimics pro-democracy movements' lack of capacity in building broader alliances. Likewise, these movements' tendency toward elitism and habit of penetrating the State also characterise current struggles for citizenship. In this situation of multiple injustices, collectivities and

mobilisations, it could be argued that democratic representation and politics is the foremost arena for integrating and transforming antagonistic relations within fragmented popular struggles.

However, this requires a democracy that not only has sovereign control over public affairs, but also contains robust channels and organisations for political representation. In Indonesia, it is found that formal democracy is underperforming in this respect. It is thus a foremost concern to transform democracy itself, also as a means for transforming structures of injustice in society. The development of transformative agendas, organisations, and strategies remains a continued need and challenge for the realisation of citizenship in contemporary Indonesia.

Few challenges to the modern dream of democratic citizenship appear greater than the presence of severe ethnic, religious, and linguistic divisions in society. With their diverse religions and ethnic communities, the Southeast Asian countries of Malaysia, Singapore, and Indonesia have grappled with this problem since achieving independence after World War II. Each country has on occasion been torn by violence over the proper terms for accommodating pluralism. Until the Asian economic crisis of 1997, however, these nations also enjoyed one of the most sustained economic expansions the non-Western world has ever seen. This timely volume brings together fifteen leading specialists of the region to consider the impact of two generations of nation-building and market-making on pluralism and citizenship in these deeply

divided Asian societies. Examining the new face of pluralism from the perspective of markets, politics, gender, and religion, the studies show that each country has developed a strikingly different response to the challenges of citizenship and diversity. The contributors, most of whom come Southeast Asia, pay particular attention to the tension between state and societal approaches to citizenship. They suggest that the achievement of an effectively participatory public sphere in these countries will depend not only on the presence of an independent "civil society," but on a synergy of state and society that nurtures a public culture capable of mediating ethnic, religious, and gender divides. The Politics of Multiculturalism will be of special interest to students of Southeast Asian history and society, anthropologists grappling with questions of citizenship and culture, political scientists studying democracy across cultures, and all

The Indonesian term *adat* means "custom" or "tradition", and carries connotations of sedate order and harmony. Yet in recent years it has suddenly become associated with activism, protest and violence.

This book investigates the revival of *adat* in Indonesian politics, identifying its origins, the historical factors that have conditioned it and the reasons behind its recent blossoming. It considers whether the *adat* revival is a constructive contribution to Indonesia's new

political pluralism or a divisive, dangerous and reactionary force, and examines the implications for the development of democracy, human rights, civility and political stability. *The Revival of Tradition in Indonesian Politics* provides detailed coverage of the growing significance of adat in Indonesian politics. It is an important resource for anyone seeking to understand the contemporary Indonesian political landscape.

By providing various fascinating first-hand accounts of how citizens negotiate their rights in the context of weak state institutions, *Citizenship and Democratization in Southeast Asia* offers a unique bottom-up perspective on the evolving character of public life in democratizing Southeast Asia.

Indonesia's Islamic organizations sustain the country's thriving civil society, democracy, and reputation for tolerance amid diversity. Yet scholars poorly understand how these organizations envision the accommodation of religious difference. What does tolerance mean to the world's largest Islamic organizations? What are the implications for democracy in Indonesia and the broader Muslim world? Jeremy Menchik argues that answering these questions requires decoupling tolerance from liberalism and investigating the historical and political conditions that engender democratic values. Drawing on archival documents, ethnographic observation, comparative political theory, and an original survey, *Islam and Democracy in Indonesia* demonstrates that Indonesia's Muslim leaders favor a democracy in which individual rights and group-differentiated rights converge within a system of legal pluralism, a

Few countries as culturally rich, politically pivotal, and naturally beautiful as Indonesia are as often misrepresented in global media and conversation. Stretching 3,400 miles east to west along the equator, Indonesia is the fourth most populous country in the world and home to more than four hundred ethnic groups and several major world religions. This sprawling Southeast Asian nation is also the world's most populous Muslim-majority country and the third largest democracy. Although in recent years the country has experienced serious challenges with regard to religious harmony, its trillion-dollar economy is booming and its press and public sphere are among the most vibrant in Asia. A land of cultural contrasts,

contests, and contradictions, this ever-evolving country is today rising to even greater global prominence, even as it redefines the terms of its national, religious, and civic identity. The Routledge Handbook of Contemporary Indonesia offers an overview of the modern making and contemporary dynamics of culture, society, and politics in this powerful Asian nation. It provides a comprehensive survey of key issues in Indonesian politics, economics, religion, and society. It is divided into six sections, organized as follows: Cultural Legacies and Political Junctures Contemporary Politics and Plurality Markets and Economic Cultures Muslims and Religious Plurality Gender and Sexuality Indonesia in an Age of Multiple Globalizations Bringing together original contributions by leading scholars of Indonesia in law, political science, history, anthropology, sociology, religious studies, and gender studies this
