God cares about your clutter. We're beginning to understand that we should be organized, but we don't hear as much on why we should be organized. Why should it matter if our lives are disorganized? Purge with Passion: Organizing Principles from a Christian Perspective focuses on that question. This isn't your average organizing book. If you see organization as a step to a happier and more productive life, then you're partly right. But, what if there's more? Our resources and possessions are meant to be used for God, but too often they distract us from God. Jodie Watson helps you free yourself from the clutter with practical and actionable advice. But she also explains that what truly matters is the heart behind your organization. Identify the ways the disorganization in your life can hinder you from pursuing God's will. Take a deeper look at the things that God has entrusted to you. Adopt a biblical approach to ordering your life for God's glory. Go beyond the surface and discover what's at the very heart of your disorganization. God has a specific purpose for you and the world in which you live. Get ready to step out of the mess and step into God's amazing plan for order.

Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S.
