Simply Selling More Cars Won't Be Enough: Revolutionizing the Retail Automotive Industry ?Dale Pollak believes that the car business—and the dealers who make their living in it—are in more trouble than anyone cares to admit. After four decades and three best-selling books, Pollak has witnessed the trials and triumphs of the retail automotive industry from a vantage point that few get. While car dealers are making good money, he warns that the industry is at a critical turning point, with too few paying attention to how inefficiency and lack of transparency are sapping the industry's true potential. Amid the ever-faster confluence of technology, the Internet, and changing consumer preferences, the future prosperity of the industry is far from secure. Like I See It offers practical solutions, such as making the sales process more customer-focused and digitally driven to encourage sales, managing new and used inventory to mitigate margin compression, and ending factory bonus checks. It spurs much-needed conversations and sets guideposts that help dealers, OEMs, and solution providers improve how they do business. It also shows dealers how to stay relevant, evolve to keep up with the changing times, and deal with issues like high personnel turnover and the coming disruption of ride-sharing, self-driving cars, and Millennials who don't want (or can't afford) to own a car. Pollak believes that success will come to dealers who recognize that each customer engagement is a chance to make a positive impact and create a bond. He offers a collectively minded approach that will help build a better, more profitable, and prosperous retail automotive industry for tomorrow.

How the world's leading innovators push their ideas to fruition again and again Edison famously said that genius is 1 percent inspiration, 99 percent perspiration. Ideas for new businesses, solutions to the world's problems, and artistic breakthroughs are common, but great execution is rare. According to Scott Belsky, the capacity to make ideas happen can be developed by anyone willing to develop their organizational habits and leadership capability. That's why he founded Behance, a company that helps creative people and teams across industries develop these skills. Belsky has spent six years studying the habits of creative people and teams that are especially productive—the ones who make their ideas happen time and time again. After interviewing hundreds of successful creatives, he has compiled their most powerful—and often counterintuitive—practices, such as: •Generate ideas in moderation and kill ideas liberally •Prioritize through nagging •Encourage fighting within your team While many of us obsess about discovering great new ideas, Belsky shows why it's better to develop the capacity to make ideas happen—a capacity that endures over time.

In this New York Times bestseller, Isaac Lidsky draws on his experience of achieving immense success, joy, and fulfillment while losing his sight to a blinding disease to show us that it isn't external circumstances, but how we perceive and respond to them, that governs our reality. Fear has a tendency to give us tunnel vision—we fill the unknown with our worst imaginings and cling to what's familiar. But when confronted with new challenges, we need to think more broadly and adapt. When Isaac Lidsky learned that he was beginning to go blind at age thirteen, eventually losing his sight entirely by the time he was twenty-five, he initially thought that blindness would mean an end to his early success and his hopes for the future. Paradoxically, losing his sight gave him the vision to take responsibility for his reality and thrive. Lidsky graduated from Harvard College at age nineteen, served as a Supreme Court law clerk, fathered four children, and turned a failing construction subcontractor into a highly profitable business. Whether we're blind or not, our vision is limited by our past experiences, biases, and emotions. Lidsky shows us how we can overcome paralyzing fears, avoid falling prey to our own assumptions and faulty leaps of logic, silence our inner critic, harness our strength, and live with open hearts and minds. In sharing his hard-won insights, Lidsky shows us how we too can confront life's trials with initiative, humor, and grace.

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The *Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.
