Shamanism: Archaic Techniques of Ecstasy is a historical study of the different forms of shamanism around the world written by the Romanian historian of religion Mircea Eliade. It was first published in France by Librairie Payot under the French title of Le Chamanisme et les techniques archaïques de l'extase in 1951. The book was subsequently translated into English by Willard R. Trask and published by Princeton University Press in 1964. At the time of the book's writing, Eliade had earned a PhD

[Shamanism: Archaic Techniques of Ecstasy - Wikipedia](#)

Chapters 8 and 13 are probably the most fascinating in the book. In Chapter 8, Eliade talks about shamanism and cosmology, saying that "the pre-eminently shamanic technique is the passage from one cosmic region to another - from earth to the sky or from earth to the underworld" [1951/1964: 259]. The author is a strong believer in the mystical experience, and, naturally, thinks that the soul of the shaman in ecstasy can fly up or down in the course of his celestial or infernal journeys.

Shamanism: Archaic Techniques of Ecstasy is a dense volume of incredibly intricate and detailed research of an extremely fine scholar into the field of religious anthropology. Such is the seriousness of its subject matter that it presents itself as an excellent tool for throwing at 'new-age' practitioners of spiritual bullshit.

Read Book Mircea Eliade Shamanism Archaic Techniques Of Ecstasy

If we are going to think seriously about shamanism, then we have to confront Mircea Eliade, whose famous book Shamanism: Archaic Techniques of Ecstasy has defined the terms of the discussion for more than fifty years. Yet the book is deeply flawed, and Eliade's approach has been subjected to compelling anthropological, historical, and feminist criticism.

First published in 1951, Shamanism soon became the standard work in the study of this mysterious and fascinating phenomenon. Writing as the founder of the modern study of the history of religion, Romanian émigré—scholar Mircea Eliade (1907-1986) surveys the practice of Shamanism over two and a half millennia of human history, moving from the Shamanic traditions of Siberia and Central Asia ...

Surveys the practice of Shamanism over two and a half millennia of human history, moving from the Shamanic traditions of Siberia and Central Asia—where Shamanism was first observed—to North and South America, Indonesia, Tibet, China, and beyond. Eliade illuminates the magico-religious life of societies that give primacy of place to the figure of the Shaman—at once magician and medicine man, healer and miracle-doer, priest, mystic, and poet.

The foundational work on shamanism now available as a Princeton Classics paperback Shamanism is an essential work on the study of this mysterious and fascinating phenomenon. The founder of the modern study of the history of religion, Mircea Eliade, surveys the tradition through two and a half millennia of human history, moving from the shamanic traditions of Siberia and Central Asia—where shamanism was first observed—to North and South America, Indonesia, Tibet, China, and beyond. In this authoritative survey, Eliade illuminates the magico-religious life of societies that give primacy of place to the figure of the shaman—at once magician and medicine man, healer and miracle-doer, priest, mystic, and poet. Synthesizing the approaches of psychology, sociology, and ethnology, Shamanism remains the reference book of choice for those interested in this practice.

A full exposition of the theory and practices of Yoga, the history of its forms and its role in the evolution of Indian spirituality

In the period dominated by the triumphs of scientific rationalism, how do we account for the extraordinary success of such occult movements as astrology or the revival of witchcraft? From his perspective as a historian of religions, the eminent scholar Mircea Eliade shows that such popular trends develop from archaic roots and periodically resurface in certain myths, symbols, and rituals. In six lucid essays collected for this volume, Eliade reveals the profound religious significance that lies at the heart of many contemporary cultural vogues. Since all of the essays except the last were originally delivered as lectures, their introductory character and lively oral style make them particularly accessible to the intelligent nonspecialist. Rather than a popularization, Occultism, Witchcraft, and Cultural Fashions is the fulfillment of Eliade's conviction that the history of religions should be read by the widest possible audience.

Mircea Eliade—one of the most renowned expositors of the psychology of religion, mythology, and magic—shows that myth and symbol constitute a mode of thought that not only came before that of discursive and logical reasoning, but is still an essential function of human consciousness. He describes and analyzes some of the most powerful and ubiquitous symbols that have ruled the mythological thinking of East and West in many times and at many levels of cultural development.

This book examines shamanism from evolutionary and biological perspectives to identify the origins of shamanic healing in rituals that enhance individual and group function. * Written by an internationally recognized scholar on shamanism * Illustrates evidence of ancient shamanic practices * A bibliography provides current and historical sources on shamanism
