With their refined beauty and elegant flower form, moth orchids (members of the genus *Phalaenopsis*) are the basic black of the orchid world. In fact, moth orchids are the most popular orchids in the world, accounting for a staggering 75 percent of all orchid plant sales. More than merely beautiful, they are also among the easiest orchids to grow, whether in greenhouses, on windowsills, or under artificial lights. Professional horticulturalist and orchid expert Steven A. Frowine, author of *Miniature Orchids*, focuses on the new orchid stars while also providing a detailed look at the classic hybrids and species. Readers will be enticed by the book's lavish color photographs and gratified by the wealth of practical advice on selecting and buying moth orchids. Most importantly, Frowine shares his secrets on how these glorious plants can be grown to perfection, with recommendations about light levels, potting media, watering, and feeding.

Abraham Drassinower presents a new way to balance the needs of creators and users of authored works. Disentangling copyright theory from its focus on the economic value of a work as a commodity, he views a work instead as a communicative act. Infringement, according to this perspective, is an unauthorized appropriation of another's speech.

This book is one of the classic book of all time.

The true story of the American West on film, through its shooting stars and the directors who shot them... Howard Hughes explores the Western, running from John Ford's 'Stagecoach' to the revisionary 'Tombstone'. Writing with panache and fresh insight, he explores 27 key films, and draws on production notes, cast and crew biographies, and the films' box-office success, to reveal their place in western history. He shows how through reinvention and resurrection, this genre continually postpones the big adios and avoids ending up in Boot Hill...permanently. Major films covered include the best from genre giants John Ford, Howard Hawks and John Wayne, plus classics 'High Noon', 'Shane', 'The Magnificent Seven' and 'Butch Cassidy and the Sundance Kid'. 'Stagecoach to Tombstone' makes many more stops along the way, examining well-known blockbusters and lowly B-movie oaters alike. It examines comedy westerns, adventures 'south of the border', singing cowboys and the varied depiction of Native Americans on screen. Hughes also engagingly charts the genre's timely renovation by Sam Peckinpah ('Ride the High Country' and 'The Wild Bunch'), Sergio Leone ('Once Upon a Time in the West') and Clint Eastwood ('The Outlaw Josey Wales' and 'Unforgiven'). Presented too are the best of western trivia, a filmography of essential films - and ten aficionados and critics, including Alex Cox, Christopher Frayling, Philip French and Ed Buscombe, give their verdict on the best in the west.
