this region over the past 200 years. It examines how global trends during this period shaped the Middle East and how these trends were affected by the region ' s development. Three trends from the past two centuries are highlighted: The region as a strategic conduit between East and West The development of the region's natural resources, especially oil The impact of a rapidly globalizing world economy on the Middle East

How empires have used diversity to shape the world order for more than two millennia Empires—vast states of territories and peoples united by force and ambition—have dominated the political landscape for more than two millennia. Empires in World History departs from conventional European and nation-centered perspectives to take a remarkable look at how empires relied on

## Chapter 14 Summary

diversity to shape the global order. Beginning with ancient Rome and China and continuing across Asia, Europe, the Americas, and Africa, Jane Burbank and Frederick Cooper examine empires' conquests, rivalries, and strategies of domination—with an emphasis on how empires accommodated, created, and manipulated differences among populations. Burbank and Cooper examine Rome and China from the third century BCE, empires that sustained state power for centuries. They delve into the militant monotheism of Byzantium, the Islamic Caliphates, and the short-lived Carolingians, as well as the pragmatically tolerant rule of the Mongols and Ottomans, who combined religious protection with the politics of loyalty. Burbank and Cooper discuss the influence of empire on capitalism and popular sovereignty, the limitations and instability of Europe's colonial projects, Russia's repertoire of

exploitation and differentiation, as well as the "empire of liberty"—devised by American revolutionaries and later extended across a continent and beyond. With its investigation into the relationship between diversity and imperial states, *Empires in World History* offers a fresh approach to understanding the impact of empires on the past and present.

*Forging the Modern World* offers an accessible explanation of key transformations in global economic, political, and ideological relationships since the sixteenth century. Examining global history by exploring the ways historians construct the past, this text will help students reflect on how sources, methodologies, and trends shape how we perceive history.

## Chapter 14 Summary

While world history materials date back to prehistoric times, the field itself is relatively young. Indeed, when the first edition of Peter Stearns ' s best-selling *World History in Documents* was published in 1998, world history was poised for explosive growth, with the College Board approving the AP world history curriculum in 2000, and the exam shortly thereafter. At the university level, survey world history courses are increasingly required for history majors, and graduate programs in world history are multiplying in the U.S. and overseas. World events have changed as rapidly as the field of world history itself, making the long-awaited second edition of *World History in Documents* especially timely. In addition to including a new preface, focusing on current trends in the field, Stearns has updated forty percent of the textbook, paying particular attention to global processes throughout history. The book also

covers key events that have altered world history since the publication of the first edition, including terrorism, global consumerism, and environmental issues.

This clear and engaging book provides a concise overview of the Ming-Qing epoch (1368 – 1912), China ' s last imperial age. Beginning with the end of the Mongol domination of China in 1368, this five-century period was remarkable for its continuity and stability until its downfall in the Revolution of 1911. Viewing the Ming and Qing dynasties as a coherent era characterized by the fruition of diverse developments from earliest times, Jonathan Porter traces the growth of imperial autocracy, the role of the educated Confucian elite as custodians of cultural authority, the significance of ritual as the grounding of political and social order, the tension

## Chapter 14 Summary

between monarchy and bureaucracy in political discourse, the evolution of Chinese cultural identity, and the perception of the “ barbarian ” and other views of the world beyond China. As the climax of traditional Chinese history and the harbinger of modern China in the twentieth century, Porter argues that imperial China must be explored for its own sake as well as for the essential foundation it provides in understanding contemporary China, and indeed world history writ large.

Modern Architecture is a 14th chapter of the series containing: -

Guide to the History of Architectural Styles is a full-color illustrated edition of the classic study of the history of architecture. This handbook has been written by Tatyana Fedulova - Russian art critic, lecturer and popularizer of history of Fine Arts, the expert in the History of Art and Religion. It is a "Must Have" book for tourists, students, and architecture and arts enthusiasts. It provides you with the most comprehensive and at the same time brief information of how the architectural styles were developed and flowed through the ages to our time. The author reviewed the most significant structures that represent different styles and cultures of the world from the late 4th millennium BC. Extensively illustrated the guidebook includes photos, plans, scales for world-famous structures such as the Roman Colosseum, the tower of Babel, the Pantheon and many others.

# Download File PDF Modern World History Chapter 14 Summary

A hugely important book that solely and fully explores for the first time the complex partnership during World War II between FDR and Stalin, by the editor of *My Dear Mr. Stalin: The Complete Correspondence of Franklin D. Roosevelt and Joseph V. Stalin* ( “ History owes a debt to Susan Butler for the collection and annotation of these exchanges ” —Arthur Schlesinger, Jr). Making use of previously classified materials from the Russian State Archive of Social and Political History, and the Archive of the Foreign Policy of the Russian Federation, as well as the Franklin D. Roosevelt Library and three hundred hot war messages between Roosevelt and Stalin, Butler tells the story of how the leader of the capitalist world and the leader of the Communist world became more than allies of convenience during World War II. Butler

## Chapter 14 Summary

reassess in-depth how the two men became partners, how they shared the same outlook for the postwar world, and how they formed an uneasy but deep friendship, shaping the world ' s political stage from the war to the decades leading up to and into the new century. Roosevelt and Stalin tells of the first face-to-face meetings of the two leaders over four days in December 1943 at Tehran, in which the Allies focused on the next phases of the war against the Axis Powers in Europe and Asia; of Stalin ' s agreement to launch another major offensive on the Eastern Front; and of his agreement to declare war against Japan following the Allied victory over Germany. Butler writes of the weeklong meeting at Yalta in February of 1945, two months before Roosevelt ' s death, where the unconditional surrender of Nazi Germany was agreed on and postwar Europe was reorganized, and where Stalin agreed to

## Chapter 14 Summary

participate in Roosevelt ' s vision of the United Nations. The book makes clear that Roosevelt worked hard to win Stalin over, pursuing the Russian leader, always holding out the promise that Roosevelt ' s own ideas were the best bet for the future peace and security of Russia; however, Stalin was not at all sure that Roosevelt ' s concept of a world organization, even with police powers, would be enough to keep Germany from starting a third world war, but we see how Stalin ' s view of Roosevelt evolved, how he began to see FDR as the key to a peaceful world. Butler ' s book is the first to show how FDR pushed Stalin to reinstate religion in the Soviet Union, which he did in 1943; how J. Edgar Hoover derailed the U.S.-planned establishment of an OSS intelligence mission in Moscow and a Soviet counterpart in America before the 1944 election; and that Roosevelt had wanted to involve Stalin in

## Chapter 14 Summary

the testing of the atomic bomb at Alamogordo, New Mexico. We see how Roosevelt ' s death deeply affected Stalin. Averell Harriman, American ambassador to the Soviet Union, reported that the Russian premier was “ more disturbed than I had ever seen him, ” and said to Harriman, “ President Roosevelt has died but his cause must live on. We shall support President Truman with all our forces and all our will. ” And the author explores how Churchill ' s—and Truman ' s—mutual mistrust and provocation of Stalin resulted in the Cold War. A fascinating, revelatory portrait of this crucial, world-changing partnership.
