The result is a text that maintains its original distinctive style while addressing contemporary issues and situations that students care about, most importantly, the continuing phenomenon of globalization. The Thematic Approach of The Human Mosaic The Human Mosaic introduces five themes in the opening chapter—culture region, cultural diffusion, cultural ecology, cultural interaction, and cultural landscape—then uses those themes as a framework for the topical chapters that follow. Each theme is applied to a variety of geographical topics: demography, agriculture, the city, religion, language, ethnicity, politics, industry, folk and popular culture. Through this organization, students are able to relate to the most important aspects of cultural geography at every point in the text.
