Some negotiations are easy. Others are more difficult. And then there are situations that seem completely hopeless. Conflict is escalating, people are getting aggressive, and no one is willing to back down. And to top it off, you have little power or other resources to work with. Harvard professor and negotiation adviser Deepak Malhotra shows how to defuse even the most potentially explosive situations and to find success when things seem impossible. Malhotra identifies three broad approaches for breaking deadlocks and resolving conflicts, and draws out scores of actionable lessons using behind-the-scenes stories of fascinating real-life negotiations, including drafting of the US Constitution, resolving the Cuban Missile Crisis, ending bitter disputes in the NFL and NHL, and beating the odds in complex business situations. But he also shows how these same principles and tactics can be applied in everyday life, whether you are making corporate deals, negotiating job offers, resolving business disputes, tackling obstacles in personal relationships, or even negotiating with children. As Malhotra reminds us, regardless of the context or which issues are on the table, negotiation is always, fundamentally, about human interaction. No matter how high the stakes or how protracted the dispute, the object of negotiation is to engage with other human beings in a way that leads to better understandings and agreements. The principles and strategies in this book will help you do this more effectively in every situation.

"Find out how to successfully resolve your most emotionally charged conflicts. In this landmark book, world-renowned Harvard negotiation expert Daniel Shapiro presents a groundbreaking, practical method to reconcile your most contentious relationships and untangle your toughest conflicts. Before you get into your next conflict, read Negotiating the Nonnegotiable. It is not just "another book on conflict resolution," but a crucial step-by-step guide to resolve life's most emotionally challenging conflicts--whether between spouses, a parent and child, a boss and an employee, or rival communities or nations. These conflicts can feel nonnegotiable because they threaten your identity and trigger what Shapiro calls the Tribes Effect, a divisive mind-set that pits you against the other side. Once you fall prey to this mind-set, even a trivial argument with a family member or colleague can mushroom into an emotional uproar. Shapiro offers a powerful way out, drawing on his pioneering research and global fieldwork in consulting for everyone from heads of state to business leaders, embattled marital couples to families in crisis. And he also shares his insights from negotiating with three of the world's toughest negotiators--his three young sons. This is a must read to improve your professional and personal relationships"--

A member of the world renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. A member of the world-renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. For many years, two approaches to negotiation have prevailed: the "win-win" method exemplified in Getting to Yes by Roger Fisher, William Ury, and Bruce Patton; and the hard-bargaining style of Herb Cohen's You Can Negotiate Anything. Now award-winning Harvard Business School professor Michael Wheeler provides a dynamic alternative to one-size-fits-all strategies that don't match real world realities. The Art of Negotiation shows how master negotiators thrive in the face of chaos and uncertainty. They don't trap themselves with rigid plans. Instead they understand negotiation as a process of exploration that demands ongoing learning, adapting, and influencing. Their agility enables them to reach agreement when others would be stalemated. Michael Wheeler illuminates the improvisational nature of negotiation, drawing on his own research and his work with Program on Negotiation colleagues. He explains how the best practices of diplomats such as George J. Mitchell, dealmaker Bruce Wasserstein, and Hollywood producer Jerry Weintraub apply to everyday transactions like selling a house, buying a car, or landing a new contract. Wheeler also draws lessons on agility and creativity from fields like jazz, sports, theater, and even military science.

Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement

Negotiation is the middle ground between capitulation and stonewalling, a back-and-forth between two parties trying to reach agreement. If a price or other term is non-negotiable, there is no give and take, just "take it or leave it." You may think you are negotiating, but if the other side isn't playing, you aren't either. Regardless of the industry, situation, or product, the two most common mistakes negotiators make are: 1. they give ground too easily, and; 2. they get nothing in return. When dealing with tough customers it is even more important to be able to defend your position and bargain for reciprocal concessions. Negotiating With Tough Customers provides proven methods for holding your ground against (seemingly) more powerful negotiators. But it goes further, making sure that when you do give ground, you get equal or better value in return. Using a cooperative, collaborative approach in a hardball negotiation just doesn't work. Tough negotiators will play win-win, but only if they have nothing to lose. Negotiating With Tough Customers will make you a better salesperson by making you a better negotiator...and vice versa.
