Read Book Nutrition Counseling And Education Skill Development

they'll need as Registered Dietitian professionals. Throughout the book, the authors focus on effective nutrition interventions, evidence-based theories and models, clinical nutrition principles, and knowledge of behavioral science and educational approaches. Packed with activities, case studies, and self-assessment questions, the Seventh Edition features new content that reflects the latest changes in the field, new online videos that bring nutrition counseling techniques to life, and a powerful array of new and enhanced in-text and online learning tools.

The text covers communications, counseling, interviewing, motivating clients, delivering oral presentations and using media in presentations. Communication is basic to the relationship that the Registered Dietitian (RD) professional has with their clients. The Academy of Nutrition and Dietetics recognizes the importance of communication skills for practitioners to promote health, disease prevention and treatment. Providing people with information on what to eat is not enough, the RD must also promote and facilitate behavior changes to more healthful food choices. The text incorporates the Nutrition Care Process (NCP) and model, including four steps of nutrition assessment, nutrition diagnosis using PES statement (Problem, Etiology and Signs/Symptoms), nutrition intervention, and nutrition monitoring and evaluation. The PES statements are the most critical in that the Academy of Nutrition and Dietetics has been stressing this as an essential component of their standards and requirements. The text uses activities, case studies, self assessment questions, web references and graphics to engage the student and

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Marcia Herrin and Maria Larkin have collaborated on the second edition of Nutrition Counseling in the Treatment of Eating Disorders, infusing research-based approaches and their own clinically-refined tools for managing food and weight-related issues. New to this edition is a section on nutrition counseling interventions derived from cognitive behavioral therapy-enhanced, dialectical behavioral therapy, family-based treatment, and motivational interviewing techniques. Readers will appreciate the state of the

Read Book Nutrition Counseling And Education Skill Development

art nutrition and weight assessment guidelines, the practical clinical techniques for managing bingeing, purging, excessive exercise, and weight restoration as well as the unique food planning approach developed by the authors. As a comprehensive overview of food and weight-related treatments, this book is an indispensable resource for nutrition counselors, psychotherapists, psychiatrists, physicians, and primary care providers.

Through appropriate counseling and intervention, nutritionists play an important role in encouraging clients to make and maintain healthy dietary changes. Nutrition Counseling Skills for the Nutrition Care Process, Fourth Edition, provides the latest counseling theory and communication techniques for clinical and community settings within the context of the American Dietetic Association Nutrition Care Process. The Fourth Edition focuses on tailoring intervention strategies to a client's dietary needs through effective interviewing, assessment, and counseling. This revision addresses the unique needs nutrition counselors face regarding obesity, heart disease, diabetes, renal disease, hypertension, cancer, eating disorders, and pregnancy.

This practical text presents a wealth of fresh ideas and techniques for strengthening counseling skills to face real-world issues in nutrition therapy. It offers students and practitioners advice on ways to increase referrals, decrease no-shows, and overcome common barriers to effective counseling. The Third Edition also explores strategies for counseling patients with AIDS, diabetes, and other chronic diseases, for group

therapy, for teaching developmental skills, and for end-of-life counseling. This edition has a new reader-friendly design and layout. New learning activities—including case studies and critical thinking exercises—encourage students to apply what they have learned to common situations in clinical practice.

Health Sciences & Nutrition

This book will guide you from the theoretical underpinnings of hands-on nutrition education (HONE) programs to the tools necessary to turn that theory into practice and customize a program for your target population. Learn practical guidelines for different types of HONE activities, including: Food demonstrations; Grocery store tours; Cooking classes; Development and management of institutional HONE programs. Resources include equipment lists, cooking class materials, resource planning sheets, medical documentation guide, program surveys and evaluations, sample funding proposal and much more.
