"What is the meaning of being?" This is the central question of Martin Heidegger's profoundly important work, in which the great philosopher seeks to explain the basic problems of existence. A central influence on later philosophy, literature, art, and criticism--as well as existentialism and much of postmodern thought--Being and Time forever changed the intellectual map of the modern world. As Richard Rorty wrote in the *New York Times Book Review*, "You cannot read most of the important thinkers of recent times without taking Heidegger's thought into account." This first paperback edition of John Macquarrie and Edward Robinson's definitive translation also features a new foreword by Heidegger scholar Taylor Carman.

A new reading of justice engaging the work of two philosophical poets who stand in conversation with the work of Martin Heidegger. What is the measure of ethics? What is the measure of justice? And how do we come to measure the immeasurability of these questions? Thinking the Poetic Measure of Justice situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way. Charles Bambach engages the works of two philosophical poets who stand as the bookends of modernity--Friedrich Hölderlin (1770-1843) and Paul Celan (1920-1970)--offering close textual readings of poems from each that define and express some of the crucial problems of German philosophical thought in the twentieth century: tensions between the native and the foreign, the proper and the strange, the self and the other. At the center of this philosophical conversation between Hölderlin and Celan, Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal, nonmoral register by understanding it in terms of poetic measure. Focusing on Hölderlin's and Heidegger's readings of pre-Socratic philosophy and Greek tragedy, as well as on Celan's reading of Kabbalah, he frames the problem of poetic justice against the trauma of German destruction in the twentieth century.

Chronicles the German philosopher's life while exploring his education, schism with the Catholic Church, relationship with the National Socialist revolution, antisemitism, and life and teaching after World War II

La première rencontre entre Paul Celan et Martin Heidegger eut lieu en 1967, à l'occasion d'une lecture publique de Celan en Allemagne. Dès le début des années 1950 pourtant, le poète lit le philosophe et le philosophe lit le poète. Leur correspondance l'atteste, et aussi les notes de lecture que chacun porta sur les écrits de l'autre : ces deux œuvres se sont fécondées. Ce livre est un travail de restitution et de mise au point. Il est surtout une réflexion, presque quarante ans après, sur une rencontre dont le sens doit aujourd'hui encore nous requérir. Le dialogue de la poésie et de la pensée prend une résonance étrangement actuelle, en notre temps de deuil et de péril.

Paul Celan, Europe's most compelling postwar poet, was a German-speaking, East European Jew. His writing exposes and illumines the wounds that Nazi destructiveness left on language. John Felstiner's sensitive and accessible book is the first critical biography of Celan in any language. It offers new translations of well-known and little-known poems--including a chapter on Celan's famous "Deathfuge"--plus his speeches, prose fiction, and letters. The book also presents hitherto unpublished photos of the poet and his circle. Drawing on interviews with Celan's family and friends and his personal library in Normandy and Paris, as well as voluminous German commentary, Felstiner tells the poet's gripping story: his birth in 1920 in Romania, the overnight loss of his parents in Nazi deportation, his experience of forced labor and Soviet occupation during the war, and then his difficult exile in Paris. The life's work of Paul Celan emerges through readings of his poems within their personal and historical matrix. At the same time, Felstiner finds fresh insights by opening up the very process of translating Celan's poems. To present this poetry and the strain of Jewishness it displays, Felstiner uncovers Celan's sources in the Bible and Judaic mysticism, his affinities with Kafka, Heine, Hölderlin, Rilke, and Nelly Sachs, his fascination with Heidegger and Buber, his piercing translations of Shakespeare, Dickinson, Mandelstam, Apollinaire. First and last, Felstiner explores the achievement of a poet surviving in his mother tongue, the German language that had passed, Celan said, "through the thousand darkneses of deathbringing speech."

Heidegger's politically motivated use of poetry and its relation to currents of modern thought

Interest in Martin Heidegger was recently reawakened by the revelations, in his newly published 'Black Notebooks', of the full terrible extent of his political commitments in the 1930s and 1940s. The revelations reminded us of the dark allegiances co-existing with one of the profoundest and most important philosophical projects of the twentieth century--one that is of incomparable importance for literature and especially for poetry, which Heidegger saw as embodying a receptiveness to Being and a resistance to the instrumental tendencies of modernity. Poetry and the Question of Modernity from Heidegger to the Present is the first extended account of the relationship between Heidegger's philosophy and the modern lyric. It argues that some of the best-known modern poets in German and English, from Paul Celan to Seamus Heaney and Les Murray, are in deep imaginative affinity with Heidegger's enquiry into finitude, language, and Being. But the work of each of these poets challenges Heidegger because each appeals to a transcendence, taking place in language, that is inseparable from the motion of encounter with embodied others. It is thus poetry which reveals the full measure of Heidegger's relevance in redefining modern selfhood, and poetry which reveals the depth of his blindness.

Despite his predominance in twentieth-century philosophy, no intellectual biography of Martin Heidegger has yet appeared. This account of Heidegger's personal relations, originally published in German and extensively corrected by the author for this translation, enlarges our understanding of a complex figure. A well-known art historian and an intimate friend of Heidegger's, Heinrich Wiegand Petzet provides a rich portrait of Heidegger that is part memoir, part biography, and part cultural history. By recounting chronologically a series of encounters between the two friends from their meeting in 1929 until the philosopher's death in 1976, as well as between Heidegger and other contemporaries, Petzet reveals not only new aspects of Heidegger's thought and attitudes toward the historical and intellectual events of his time but also the greater cultural and social context in which he articulated his thought.
