Coleen Belk and Virginia Borden Maier have helped students demystify biology for nearly twenty years in the classroom and nearly ten years with their book, *Biology: Science for Life with Physiology*. In the new Fourth Edition, they continue to use stories and current issues, such as discussion of cancer to teach cell division, to connect biology to student's lives. Learning Outcomes are new to this edition and integrated within the book to help professors guide students' reading and to help students assess their understanding of biology. A new Chapter 3, "Is It Possible to Supplement Your Way to Better Health? Nutrients and Membrane Transport," offers an engaging storyline and focused coverage on micro- and macro-nutrients, antioxidants, passive and active transport, and exocytosis and endocytosis. This package contains: *Biology: Science for Life with Physiology, Fourth Edition*

For introductory courses for biology majors. Discover biology, develop skills, and make connections Known for its discovery-based, student-centered approach, Scott Freeman's *Biological Science* emphasizes higher-order thinking, enhances skill development, and promotes active learning. *Biological Science* equips students with strategies that go beyond memorization and guides them in making connections between core concepts and content, underscoring principles from the Vision and Change in Undergraduate Biology Education report. Students learn to apply their knowledge throughout the course, assess their level of understanding, and identify the types of cognitive skills that need improvement. The 7th Edition enables students to see that biology concepts are connected by weaving one case study throughout the entire text, helping students make connections across biology. New content includes updated coverage of advances in genomic editing, global climate change, and recent insights into the evolution of land plants. New embedded Pearson eText assets support content in the text with whiteboard Making Models videos, Figure Walkthrough videos, and BioFlix animations that engage students, help them learn, and guide them in completing assignments. Also available with Mastering Biology By combining trusted author content with digital tools and a flexible platform, Mastering personalizes the learning experience and improves results for each student. Integrate dynamic content and tools with Mastering Biology and enable students to practice, build skills, and apply their knowledge. Built for, and directly tied to the text, Mastering Biology enables an extension of learning, allowing students a platform to practice, learn, and apply outside of the classroom.
