This title, written by an expert author team, provides students with the support they need to pass the Edexcel level 1 functional skills English assessments.

Help students to develop their knowledge and build essential skills with practical assessment guidance and plenty of support for the new mathematical requirements in this updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Physics specification, this revised textbook will: - Support practical assessment with practical skill summaries throughout. - Provide support for all 16 required practicals with detailed explanations, data and exam style questions for students to answer. - Build understanding and knowledge with a variety of questions to engage and challenge students throughout the course: prior knowledge, worked examples, 'Test yourself' and exam practice questions. - Aid mathematical understanding and application with worked examples of calculations and a dedicated 'Maths for Physics' chapter. - Develop understanding and enable self- and peer-assessment with free online access to 'Test yourself' answers.

Supports Pearson Edexcel Level 3 Advanced GCE in Biology B (9B10) specification. Build investigative skills, test understanding and apply biological theory to topical examples with the updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Biology B specification, this revised textbook will: - Support all 16 required practicals with activities and questions to help students explain procedures, analyse data and evaluate results. - Provide clear definitions, as well as explanations, of the meanings of all technical vocabulary needed for the specification. - Help bring students up to speed with a summary of prior knowledge and diagnostic questions at the start of each chapter. - Offer assessment guidance with exam practice questions at the end of each chapter, graded by difficulty to support progression. - Stretch more able students with new extended response and 'Challenge' questions. - Build mathematical skills with a dedicated 'Maths for Biology' chapter and support throughout, explaining key concepts and methods. - Develop and embed understanding with end-of-chapter summaries, free online access to 'Test yourself' answers and an extended glossary.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced subject experts Cameron Dunn and Michael Witherick, this Student Guide is divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - Develop understanding of key concepts and terminology in key physical geography topics tectonic processes and hazards, landscape systems, processes and change (glaciated and coastal), the water cycle and water insecurity, and the carbon cycle and energy security. - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - Build understanding of the different question types, so that students can approach each question with confidence. - Enable students to target top grades in their exam paper with sample answers and commentary explaining exactly why marks have been awarded.
