Rapid Quantitative Aptitude with Shortcuts & Tricks for Competitive Exams is the finest book to achieve success in Arithmetic and Advanced Mathematics for all competitive exams. The book is updated with the latest trend of questions (like Data Analysis, Caselets, Data Missing etc.) being asked in the various exams. The Unique Selling Point of the book is its strong focus on Shortcuts, Tips & Techniques, which are highlighted with Solved Examples. Written in a very student-friendly manner, the book covers complete theory with suitable illustrations followed by two levels of exercises - each containing an assortment of questions for practice in increasing level of difficulty. The book contains many tricks in not just challenging but also mundane chapters which enable you to dodge the lengthy procedures and arrive at the result quickly, thereby saving your time, thereby increasing your final examination output and score. The book is useful for various exams such as SSC, Banking, Railways, UPSC, Defence etc.

The Pearson Guide to Quantitative Aptitude for CAT 2/e has everything you need to secure a top score in the quantitative aptitude papers of the CAT and other MBA entrance examinations. Written in a student-friendly style, this book explains concepts in a concise manner and includes numerous examples and worked-out problems. It also contains ample practice problems, scientifically designed and arranged in four levels (in an increasing order of difficulty). The text also contains a chapter on Vedic mathematics, which provides unique time-saving and easy techniques for complex calculations.

This book is an asset for those who plan to appear in competitive examinations for getting jobs as well as for all MBA entrance examinations. It provides step by step guidance ideally adapted to the needs of students to tackle quantitative aptitude tests of various types, through practice with the concepts, tips, shortcuts and alternative methods in solving them.

This fully-solved book has been developed exactly to suit the need of the CAT aspirants. The objective of this textbook is to test the skill of the candidate in applying the concept and logic in solving problems in Quantitative ability section. The USP of the book is that each chapter opens with a self-diagnostic test with analysis so that each aspirant can self-assess one's level and it also guides him the tactics for preparation for that chapter. Main text has been designed with CTP technique (Concept Through Problem) where each concept/theorem/rule has been explained with the help of an illustrated problem following it. CTP enables the reader to master over the concept and to learn as how to apply this in solving a problem in CAT. KEY FEATURES

- Each Chapter has Quick concept followed by main text.
- It includes Practice sets of problems (with answers and solutions) under three headings: o CAT – START o CAT – TITA (Non-MCQ) o CAT – SPEED
- It incorpoates 800 + solved examples and 1500 + practice problems
- The Learning Centre section on our website www.phindia.com contains: o Previous years' CAT papers with answers o Mock CAT papers
