This reissue of Barth's A Shorter Commentary on Romans links to the renewed interest today in a 'theological' interpretation of Scripture. In response to the modern preoccupation with what lies behind the text (the author's context), and to a postmodern preoccupation with what lies in front of the text (the reader's context), both theologians and biblical scholars are asking the following questions: 'What is the relationship between the biblical text, interpreter and God?' 'Can the Bible be read both as an historical document and as a text that speaks to us today, and if so, how can it do so?' Barth's commentarial practice as exemplified in A Shorter Commentary on Romans answers these questions.This book is presented in two parts: first, an introduction by Maico Michielin helping readers understand Barth's theological exegetical approach to interpreting Scripture and showing readers how to let Scripture address theological and ethical concerns for today; the main body of the book then follows - the republication of the original English translation by D.H. van Daalen of Barth's A Shorter Commentary on Romans.

Today the faith of Christians is being undermined daily. A relentless stream of secular attacks from supposedly solid science has put many Christians on the defensive. Whether the argument is about evolution, history, or theology, every believer must be able to provide an answer for the hope that is within them. But you don't have to be an expert to respond effectively when confronted about your faith. Quick Answers to Tough Questions gives you quick and concise answers to the tough questions that are often posed to believers regarding: Creation and evolutionAge of the earth and Noah's ArkDeath and sufferingOrigin of life and missing links. Biblical history and a biblical worldview help us to understand the past, present, and future. Too many believers have fallen victim to those who say that the Bible's history is false or that science has disproved it. Equip yourself to address the skeptical questions and comments of believers and unbelievers alike and successfully stand strong in your defense of the inerrancy and truth of God's Word.

We increasingly recognize that Paul did not write his letter to the Romans primarily out of doctrinal concerns. Paul B. Fowler presses that insight home in this attentive, yet eminently readable, study of the letter's structure. The principles of Fowler's reading are that rhetorical questions in Romans 3–11 structure the argument, not as responses to criticism but as Paul's careful guiding of the reader, and that these chapters, like the paraenesis in Romans 12–15, address specific circumstances in Rome. Careful attention to the rhetorical structure of the letter points to tensions between Jew and Gentile that aggravate the already precarious situation of the Roman congregation. In the course of his argument, Fowler explodes the common conceptions that Paul employs diatribal technique to answer objections and that he is primarily engaged in a debate with Jews. In short, Fowler demonstrates that the apostle is not writing defensively, but responding with sensitivity to the volatile atmosphere caused by Claudius's expulsion of some Jews from Rome. The book includes an appendix on rhetorical devices and another on epistolary formulas in Paul's letters.
