The Pacific Crest National Scenic Trail (PCT)is the perfect place for an average person to do something extraordinary. Bill Walker ("Skywalker"), who stands 6'11", might seem like anything but average. Yet in a brutally honest tone, he lays to bare all his considerable weaknesses and fears. Among these are crushing weight loss and fatigue, along with a fear of getting lost or a bear stealing his food. Nonetheless, he is bound and determined to hike the PCT, which at 2,663 miles, runs all the way from Mexico to Canada.The PCT's calling card is its stunning beauty. It has a diversity of geography unequalled by any footpath in the world. Haunting and beckoning the PCT hiker are the implacable desert, the towering majesty of the so-called High Sierra, and the ruggedly bleak, northern Cascade range. Indeed, the PCT hiker faces much greater extremes of terrain and climate than on the famed Appalachian Trail. Completing this demanding challenge calls for overwhelming clarity of purpose.Walker's signature characteristic as a writer is his real talent in capturing people ("Skywalker's humor, his delight in human foibles appeal to a broad audience."--Jeff Minnick, Smoky Mountain Book News). Obviously, he is a people person because he runs into and vividly describes a truly colorful cast of characters from seemingly all walks of American life. Among these are Uber Bitch, Shit Bag, and Serial Killer; the reader learns how these hikers ended up with their names (hint: blunders). The reader need not worry that Walker is a bully. Throughout this irreverent narrative, he turns his considerable supply of humor back on himself in ruthlessly self-deprecating fashion. It all makes for a delightful read.

Bill Walker likes to walk. Everywhere. So he walked the Appalachian Trail, although he had never spent a night outdoors or backpacked before. Producer Nagle lets Bill explain the adventure in his own words. Adapted from container.

What is the best way to see the world's greatest mountain range--the Himalayas? It's the Annapurna Circuit in Nepal, the most popular footpath in Asia. Its genius lies in its design. Trekkers wind their way around and along some of the world's greatest peaks, ultimately getting near 18,000 feet, without ever having to do any "technical climbing." This Circuit is widely considered one of the world's great treks; mortals from all around the world come to Nepal for the chance to make the journey. Bill Walker ("Skywalker") struggled his way through the Annapurna Circuit in 2012. He has written this entertaining tale of his journey in this land of Sherpas, cold, altitude, and rushing water.

Why would a middle-aged businessman, who had never spent a single night outdoors, attempt to hike the entire Appalachian Trail in one year? Bill Walker ("Skywalker"), a former commodities trader in Chicago and London and an avid walker, developed an obsession to thru-hike all 2,175 miles of the AT. In the spring of 2005, he set off, determined to hike the trail before the arrival of winter. Immediately, he realized he had plunged into a whole new world. Jeff Minnick of the Smoky Mountain Book Review writes, "Skywalker's humor, its delight in human foibles, and its observations about human nature should appeal to a broad audience."

Since the times of Thomas Jefferson and Benjamin Franklin, Americans have headed off to Europe on odysseys of self-improvement. Inspired by them, Bill Walker ("Skywalker") decided to undertake a 500-mile trek on El Camino de Santiago, which stretches from the Pyrenees in southern France to Santiago in Northwest Spain. Better yet, he did it in the "Holy Year" of 2010, when 200,000 pilgrims were struggling on foot to make it to the Great Gothic Cathedral in Santiago de Compostela. The Camino is supposed to be a religious-spiritual pilgrimage. At Walker's side is his 18-year-old nephew, Gavin. The sharp banter between the two of them is reminiscent of the dialogue between Bill Bryson and Katz in A Walk in the Woods. Midwest Book Review calls The Best Way "a strong pick for those considering the journey themselves."

"Trekkerman is about a man who finds wonderment around every bend in the trail, every turn in the road, and every twist on the path of life. This entertaining and informative book puts the reader in Ric Samulski's shoes as he travels through his own "Bucket List" of treks that he began when he turned 60." -Fred Pflughoft, author/photographer, Wind River Range Impressions, Wyoming Wild & Beautiful, Great Lodges of the National Parks "This is the book I've been looking for. At the age of sixty, Ric Samulski began undertaking long-distance treks, including Scotland's West Highland Way, Nepal's Annapurna Circuit, and Patagonia's Paine Circuit. Trekkerman is a tour-de-force with references to legendary personalities of the Great Outdoors-John Muir, Colin Fletcher, Maurice Herzog and more. This book belongs in the library of hikers, trekkers, climbers, and pilgrims." -Bill "Skywalker" Walker, author, Skywalker: Highs and Lows on the Pacific Crest Trail, Skywalker - Close Encounters on the Appalachian Trail, The Best Way: El Camino de Santiago "I'm hearing great things about Ric's book. I'm only sorry that I'm not around to read it." -John Muir (1838-1914), author, A Thousand Mile Walk to the Gulf ABOUT THE AUTHOR: A Niagara Falls, NY native, Ric Samulski received a B.A in history from Niagara University. He and his wife, Rosemary, moved to Wyoming and began exploring its mountains and wilderness areas. After teaching in the public high school in Riverton, WY, and then on the Wind River Indian Reservation, he and Rosemary published The Pinedale Roundup, Pinedale's weekly newspaper. He and his wife spend summers in Pinedale, hiking in the Wind Rivers, and winters in New Mexico, near the Gila Wilderness.

"Gloriously witty, keen and spirited" J.J. Abrams, Director of Star Wars: The Rise of Skywalker "The odds of me ever writing a book were approximately... Oh, never mind. My golden companion worries about such things - I don't. I have indeed now written a book - telling my story, in my voice, not his - recognizing that our voices and our stories are inextricably intertwined." When Star Wars burst onto the big screen in 1977, an unflinchingly polite golden droid called C-3PO captured imaginations around the globe. But C-3PO wasn't an amazing display of animatronics with a unique and unforgettable voiceover. Inside the metal costume was an actor named Anthony Daniels. In this deeply personal memoir, Anthony Daniels recounts his experiences of the epic cinematic adventure that has influenced pop culture for more than 40 years. For the very first time, he candidly describes his most intimate memories as the only actor to appear in every Star Wars film - from his first meeting with George Lucas to the final, emotional days on the set of Star Wars: The Rise of Skywalker. With a foreword by J.J. Abrams and never-before-seen photography, this book is a nostalgic look back at the Skywalker saga as it comes to a close. I Am C-3PO: The Inside Story reveals Anthony Daniels' vulnerability, how he established his role and what he accomplished, and takes readers on a journey that just happens to start in a galaxy far, far away.

An account of the author's 2-year venture along the Appalachian Trail.

As probably the world's most experienced long distance walker who also writes, Chris Townsend has many stories to tell and many photographs to illustrate them with. Of all his adventures, those he enjoyed on America's Pacific Crest Trail in the Eighties are among his favourites. The PCT runs 2,600 miles from Mexico to Canada through desert, forest and mountain wildernesses. In Rattlesnakes and Bald Eagles Chris recounts not only his own six month walk but also the longer story of the Trail, and shares his ideas on how it is developing and where it is all going with his many readers. Illustrated with Chris Townsend's photographs from his long hike, and earlier, iconic images, Rattlesnakes and Bald Eagles will be the definitive Pacific Crest Trail account.
