Sociology: a global introduction represents a uniquely co-ordinated and complete learning resource for sociology students worldwide. International in outlook and culturally wide-ranging, it also reminds us that sociology is valuable.

The main focus of this sociology text is the UK, Europe and North America. A recurrent theme throughout is that the modern world is becoming progressively globalized, and that it is therefore increasingly impossible to understand one country in isolation from another. The student is also encouraged to engage with the subject through such features as opening vignettes and critical thinking questions.

Sociology: A Global Introduction, with its international outlook and cultural diversity, represents a unique and complete learning resource for sociology students worldwide. Each chapter addresses a new change in society, and reveals how progress in society often comes at a price. This text has been fully updated to include the latest key debates, topics and data, and also highlights the importance of technology in contemporary social life.

Seeing Sociology in Everyday Life Sociology, 15/e, empowers students to see the world around them through a sociological lens, helping them better understand their own lives. The text is written to help students find and use the science of social behavior in everyday life. John Macionis takes students step-by-step through the theories and research that make up the discipline of sociology. This narrative, along with a global perspective, makes for an accessible and relevant introduction to sociology. MySocLab is an integral part of the Macionis learning program. In concert with the main text, it helps readers build their critical thinking skills while learning the fundamentals of sociology. Engaging activities and reliable assessments provide a digital learning system that helps students succeed in the course. With MySocLab, students can watch the latest entries in the Core Concept Video Series in sociology, explore real-world data through the new Social Explorer, and develop critical thinking skills through facilitated writing activities.

This is the first complete multi-media package in sociology — a carefully coordinated combination book, CD-ROM, and Web site. Authoritative, comprehensive, and stimulating, it offers a fresh and contemporary perspective — with a focus on the major methods, theories, and findings of the field. It emphasizes a global perspective, a multicultural view, and a focus on critical thinking, and features an

abundance of boxed features highlighting and personalizing contemporary applications. Covers: The Sociological Perspective; Sociological Investigations; Culture; Society; Socialization; Social Interaction in Everyday Life; Groups and Organizations; Deviance; Social Stratification; Social Class in the United States; Global Stratification; Sex and Gender; Race and Ethnicity; Aging and the Elderly; The Economy and Work; Politics and Government; Family; Religion; Education; Health and Medicine; Population and Urbanization; Environment and Society; Collective Behavior and Social Movements; and Social Change: Traditional, Modern, and Postmodern Societies. Includes fifty-six global and national maps. For anyone interested in a comprehensive, interactive introduction to sociology.

This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

Concise overview of the political and economic development of the world's cities, with a cultural perspective and case studies throughout, including support materials.

Extensively revised and updated, the new Fourth Edition of Global Issues: An Introduction offers a unique approach to the most important environmental, economic, social, and political concerns of modern life. Revised and updated to reflect the latest global developments Examines the most important environmental, economic, social, and political concerns of modern life The only book of its kind to use the concept of development to illustrate how different global issues are interrelated Includes a new section on nuclear energy Chapter boxes examine ways that individuals can have a positive impact on the issues examined within the text Key features include a glossary of terms; guides to further reading, media, and Internet resources; and suggestions for discussing and studying the material

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and

emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

Perspectives in Sociology provides students with a lively and critical introduction to sociology and to the ways in which sociologists are trained to think and work. The subject is presented as a sequence of different perspectives on the social world, all of them interrelated, sometimes in conflict with one another, and all contributing important and necessary insights. The discussion is backed up by extensive reference to empirical studies. This edition has been completely revised. A chapter on critical theory has been added in order to reflect the extensive work and thinking that Marx's basic work continues to stimulate. The chapter on research strategies now takes account of new developments in the philosophy of science that are relevant for sociological approaches. Throughout, the authors have rewritten extensively in their continuing desire to produce clarity, and to respond to the comments of students and teachers.
