Transfer pricing is one
of the most relevant
and challenging topics
in international
taxation. Over the last
century, nearly every

File Type PDF Solutions

country in the world introduced transfer pricing rules into their domestic legislation. Indeed, it was estimated that profit shifting generated by the improper application of transfer pricing rules has resulted in global tax losses worth USD 500 billion for governments – 20%

File Type PDF Solutions

of all corporate tax revenues. It is thus imperative that all tax professionals thoroughly understand the nature of transfer pricing and how the growing body of applicable rules works in practice. In this crucially significant volume, stakeholders from government,

academia offer deeply
informed
perspectives, both
general and specific,
on the practical
application of transfer
pricing rules, taking
into consideration all

The provision of international services has increased enormously, mainly due to the precipitous growth of the digital economy.

Accordingly, the

File Type PDF Solutions

Interpretation and application of double taxation conventions (DTCs) to income from services has become a dominant focus in the international taxation. This multiple-award-winning book is an indispensable tool for practitioners and a major contribution to the debate about tax

proposals for bringing brick-and-mortar DTCs into the digital reality. With an abundance of case studies, treaty interpretations, appraisals of policy discussions, and practical solutions, the author examines every aspect of the subject, including the following: – the Model

File Type PDF Solutions

DTCs of the OECD, the United Nations, Germany, and the United States, their similarities and differences; – relationships among the MLI, the Model DTCs, and specific DTCs; – development of the provisions dealing with services in the DTCs; – how tax authorities and

File Type PDF Solutions

courts of different countries (e.g., the United States, Germany, Brazil, India, and China) apply DTC provisions on the taxation of international services;

- opportunities and risks relating to different business practices, such as the subcontracting of services provisions,

File Type PDF Solutions

the hiring-out of labour, the secondment of employees, and the engagement of contract and toll manufacturers; – practical questions about the taxation of different distribution models – from fully edged distributors to commissionaires; – challenges and

File Type PDF Solutions

proposals relating to the differentiation between various types of services under DTCs; – the permanent establishment concept; – to what extent the structure, purposes, and scope of DTCs differ from those of the General Agreement on Trade in Services (GATS); –

File Type PDF Solutions

how changes in the US Model DTC of 2016 affect international service provisions; and – proposed changes to amending the OECD and UN Model DTCs. Viable proposals to simplify DTC provisions dealing with service income and align them with current challenges
