The Pulitzer Prize-winning author of *The Poison Squad* and *The Poisoner's Handbook* tells the amazing story of William James's quest for empirical evidence of the spirit world. What if a world-renowned philosopher and professor of psychiatry at Harvard suddenly announced he believed in ghosts? At the close of the nineteenth century, the illustrious William James led a determined scientific investigation into "unexplainable" incidences of clairvoyance and ghostly visitations. James and a small group of eminent scientists staked their reputations, their careers, even their sanity on one of the most extraordinary quests ever undertaken: to empirically prove the existence of ghosts, spirits, and psychic phenomena. What they pursued—and what they found—raises questions as fascinating today as they were then.

The Sacred Islands: A medieval land of noble samurai and animal spirits. Of scheming nobles, of magic and ancient mystery. Kitsune Sura, a wandering fox priestess, assembles a group of would-be monster hunters. Penniless and carefree, they travel from palaces to villages, seeking out dangerous mysteries. A fox, two samurai and a shy and gracious rat go forth on a career of bizarre adventures. The Spirit Hunters battle ghosts, tangle with magic and delve into terrifying puzzles. They must even survive the horrors of kitsune cuisine. These are the first three adventures of the Spirit Hunters saga. Bright, funny and exciting - these are tales of cunning monsters, flashing swords, stalwart samurai, faithful rats - and the rather dodgy antics of a fox. Spirit Hunters: Delightful romps in a gorgeous magical Japanese otherwhen. "Trust me - I'm a fox!"

Ghosts and spirits have been with us since man first started walking the earth. What are they and what do they want? Why do some haunt places and seem to only mean us harm? One team of paranormal investigators sets out to answer that question.

"Ghosts are always hungry," someone once said—and no one knows how ravenous they really are more than Ed & Lorraine Warren, the world's most renowned paranormal investigators. For decades, Ed and Lorraine Warren hunted down the truth behind the most terrifying supernatural occurrences across the nation... and brought back astonishing evidence of their encounters with the unquiet dead. From the notorious house immortalized in *The Amityville Horror* to the bone-chilling events that inspired the hit film *The Conjuring*, the Warrens fearlessly probed the darkness of the world beyond our own, and documented the all-too-real experiences of the haunted and the possessed, the lingering deceased and the vengeful damned. *Graveyard* chronicles a host of their most harrowing, fact-based cases of ghostly visitations, demonic stalking, heart-wrenching otherworldly encounters, and horrifying comeuppance from the spirit world. If you don't believe, you will. And whether you read it alone in the dead of night or in the middle of a sunny day, you'll be forever haunted by its gallery of specters eager to feed on your darkest dread. Don't miss the Warrens' latest film "Annabelle" in theaters now.

Southerners are accustomed to hearing stories of a residence, an old hotel, a mansion, or a battlefield being haunted. In *Ghost Hunters of the South*, Alan Brown shows that ghostlore is no longer enough for some. The forty-four ghost hunting groups he profiles in this book pack cameras, Geiger counters, thermal scanners, oscilloscopes, tape recorders, computers, and dowsing rods to find and record elusive proof of supernatural activity. With candor, the directors and team members reveal the passions and even obsessions that lead them to this expensive, time-consuming, and sometimes dangerous and chilling pursuit of evidence of the spirit realm. Brown interviews enthusiasts from twelve states--Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia. *Ghost Hunters of the South* takes the reader along on exciting and fearful investigations of places such as the Myrtles, St. Francis Inn, Chickamauga Battlefield, Bob Mackey's Music World, Old Talbott Tavern, North Carolina State Capitol, Granberry Opera House, and 17Hundred90 Inn and Restaurant. Brown participates in some of the investigations to gain a full and objective understanding of teachers, doctors, accountants, housewives, and law enforcement personnel, who devote much of their free time to a quest that many outsiders view with skepticism if not scorn. In fascinating, frightening, and sometimes humorous accounts, Brown highlights the determination of these individuals to answer the question: What happens to the soul after death?. Alan Brown is a professor of English and director of the Writing Center at the University of West Alabama.

Listen up, kid. My name is Dr. Cecil H.H. Mills. I'm the author of this book and many other ones that you might not have heard of. This book is about two idiot wannabe detective-types. Their names are J.J. and Valentine Watts, but I'm not sure if they're actually brothers or not. They make a friend; her name is Trudi de la Rosa. She's a wannabe detective-type too, but honestly, she's less of an idiot than the brothers. The three of them team up to solve a mystery that takes place in a snowy chateau up in the mountains. It gets more complicated around chapter 11, but now you've got the main gist of it. The story's full of intrigue and adventure and puzzles and light violence and some swear words. It's really entertaining. Just buy the book and start reading. You'll understand everything about the Ghost Hunters Adventure Club very soon.
