The #1 New York Times Bestseller One-half of the celebrated Men in Blazers duo, longtime culture and soccer commentator Roger Bennett traces the origins of his love affair with America, and how he went from a depraved, pimply faced Jewish boy in 1980's Liverpool to become the quintessential Englishman in New York. A memoir for fans of Jon Ronson and Chuck Klosterman, but with Roger Bennett's signature pop culture flair and humor. Being a teenager isn't easy, no matter where in the world you live or how much it does or doesn't rain in your hometown. As an outsider,a private-schooled Jewish kid in working-class, heavily Catholic Liverpool!Roger Bennett wasn't winning any popularity contests. But there was one idea, or ideal, that burned bright in Roger's heart. That was America! with its sunny skies, beautiful women, and cool kids with flipped collars who ate at McDonald's. When he embraced American popular culture, the dull gray world he lived in turned to neon teal!a color which had not even been invented in England yet. Introduced first through the gateway drug of The Love Boat, then to Rolling Stone, the NFL, John Hughes movies, Run-DMC, and Tracy Chapman, Roger embraced everything that would capture the imagination of a teenager growing up Stateside. When he made a real, in-the-flesh American friend who invited him over for the summer, he got to visit the promised land. A month in Chicago, and a life-changing night spent in the company of the Chicago Bears, was the first hit of freedom, of independence, of the Roger Bennett he knew he could be. (Re)Born in the USA captures the universality of growing pains, growing up, and growing out of where you come from. Drenched in the culture of the late !80s and !90s from the UK and the USA, and the heartfelt, hilarious sense of humor that has made Roger Bennett so beloved by his listeners, here is both a truly unique coming-of-age story and the love letter to America that the country needs right now.

"On September 2, 2013, at the age of 64, Diana Nyad emerged onto the shores of Key West after completing a 110 mile, 53 hour, record-breaking swim through shark-infested waters from Cuba to Florida. Her memoir shows why, at 64 she was able to achieve what she couldn't at 30 and how her repeated failures contributed to her success."--

"With unparalleled access to Heisman Trophy-winning phenom Johnny Manziel, Bruce Feldman has written a modern-day tale about the making of the next superstars in football's most important position: the quarterback. In the world of modern football, with teams worth a billion dollars or moe, no position defines a franchise like quarterback. To tell the story of all that goes on to create the perfect quarterback, bestselling author Bruce Feldman gained unique access to "Johnny Football" (that's Johnny Manziel), George Whitfield (a.k.a. "The Quarterback Whisperer"), and other unique players in what has become a specialized and high-stakes business. In the past decade the boom of the private quarterback-coach business, with its pageant-world-for-boys vibe, is changing the position and the game. The QB will tell the story of the interlocking paths of the most fascinating characters involved in this secretive world, examining how advanced analysis has taken root in football."

The National Baseball Hall of Fame and Museum, tucked away in upstate New York in a small town called Cooperstown, is far from any major media market or big league stadium. Yet no sports hall of fame's membership is so hallowed, nor its qualifications so debated, nor its voting process so dissected. Since its founding in 1936, the Hall of Fame's standards for election have been nebulous, and its selection processes arcane, resulting in confusion among voters, not to mention mistakes in who has been recognized and who has been bypassed. Numerous so-called !greats! have been inducted despite having not been so great, while popular but controversial players such as all-time home run leader Barry Bonds and all-time hits leader Pete Rose are on the outside looking in. Now, in The Cooperstown Casebook, Jay Jaffe shows us how to use his revolutionary ranking system to ensure the right players are recognized. The foundation of Jaffe's approach is his JAWS system, an acronym for the Jaffe WAR Score, which he developed over a decade ago. Through JAWS, each candidate can be objectively compared on the basis of career and peak value to the players at his position who are already in the Hall of Fame. Because of its utility, JAWS has gained an increasing amount of exposure in recent years. Through his analysis, Jaffe shows why the Hall of Fame still matters and how it can remain relevant in the 21st century.
