Amazon.com: Customer reviews: Stop Bedwetting in Seven ...

Generally, bed-wetting before age 7 isn't a concern. At this age, your child may still be developing nighttime bladder control. If bed-wetting continues, treat the problem with patience and understanding. Lifestyle changes, bladder training, moisture alarms and sometimes medication may help reduce bed-wetting.

Bed-wetting - Symptoms and causes - Mayo Clinic

TheraPee is a combination of a very advanced bedwetting alarm together with online software that resembles Dr. Sagie's face-to-face bedwetting treatment. The average program lasts 3 - 5 months and we get more than 90% success rate in this time frame.

Bedwetting is an irritation for parents, but a nightmare for their children. Up to 20% of youngsters beyond the age where they're supposed to no longer need nappies, still wet their beds, or suffer leakage during the day. Bedwetting children tend to be withdrawn from their friends, often ridiculed at kindergarten, or school, and socially isolated when it comes to sleepovers. Now, two world-ranking pelvic floor doctors have discovered a cure for bedwetting that: Involves NO pills or medicines Costs NOTHING Can be done at home Needs NO expensive visit to a doctor or specialist Is totally safe, effective in 86% of all cases, and works within a few weeks Needs NO expensive equipment or monitoring systems Cutting-edge medical research has proven that bedwetting has NOTHING to do with a child's laziness, full-bladder, deep sleep, or inattention. Bedwetting and daytime leakage are due to under-exercised muscles and loose ligaments in a child's pelvic floor. Strengthen these through simple exercises (which we've turned into games kids will love playing) and the problem goes away. END BEDWETTING NOW is a simple easy-to-follow guide for parents and grandparents to give their children a happy, and fulfilled life. END BEDWETTING NOW is a simple easy-to-follow guide for parents and grandparents to give their children a happy, and fulfilled life.

A step-by-step program for curing bedwetting, with separate sections for parent and child.

Proven, practical advice for treating and preventing potty problems.

Soothe your child's anxiety and help them to develop emotional resilience for the future. The number of children suffering from anxiety is on the rise and most parents will readily admit that they feel ill prepared and lost for words when it comes to supporting their child's emotional wellbeing. Author Alicia Eaton is a Harley Street practitioner with over 15 years' experience of helping children to feel more confident and overcome feelings of anxiety. As she explains, nearly all children will sustain bumps and bruises on the outside of their body so it's only natural that they'll also pick up a few on the inside, in the form of anxiety and worries. Learning how to tackle these quickly, stops them from turning into much bigger problems later. Whether your child has a fear of dogs, spiders, dentists or injections, struggles with school, performing on stage or sleeping at night, this book will teach you the simple solutions every parent needs to know. When your child feels happy, you'll feel happier too.

A step-by-step program for curing bedwetting, with separate sections for parent and child.

Wouldn't it be fantastic if you could simply wave a magic wand to get kids to do what you wanted? Too many parents, and teachers for that matter, struggle to get their requests heard, understood and taken seriously - kids just don't seem to be able to do as they're told nowadays. In *Words that Work: How to Get Kids to Do Almost Anything*, author Alicia Eaton, a leading Harley Street Hypnotherapist & Advanced NLP Practitioner, explains how much easier it is to get children to co-operate, simply by changing the vocabulary and structure of your sentences. She shows how powerful words are if you know about the NLP 'language of persuasion and influence'. And also shares the secret to slipping 'hypnotic influence' into day-to-day conversations.

Originally a Montessori teacher and a mother to three, now grown-up children, Alicia's combined all her skills, knowledge and expert training to create this unique parenting system that really works. So whether the issue is mealtime arguments over fussy eating or junk food cravings; an anxiety or phobia about dogs, spiders, going to school or exams; a lack of confidence; bad habits such as nail-biting, thumbsucking or bedwetting, you'll quickly learn what to say and what not to say. You'll be able to put an end to the nagging and yelling that gets you nowhere and wears you out; reward systems and star charts that quickly lose their appeal; bribery and punishments that achieve nothing and make everyone feel bad. Parents who appear to have well-behaved, happy, high achieving kids are not just plain 'lucky' - quite simply, they're handling things differently and with a bit of inside knowledge, you can too.

An easy-to-read guide for parents, using the latest thinking from the fields of positive psychology, NLP, and hypnotherapy to help children overcome bedwetting in just a few days, this edition comes with a free downloadable recording for children that is filled with positive suggestions to help them change their habits.

Do you struggle to lose weight and wonder why? Do your bad habits and lack of confidence hold you back? Do you find yourself repeating bad patterns of behavior? Fix Your Lifewill show you how easy it can be to rid yourself of life's irritating problems by using the latest psychological techniques of NLP. This is an ideal introduction to the subject, as the author Alicia Eaton cuts through the technical jargon that's usually associated with NLP and explains how the techniques and strategies used by some of the world's most successful people, can easily be incorporated into your daily life. As well as explaining how our minds work and why it's so easy to fall into bad patterns of behavior, the author presents the NLP techniques as 'Apps for the Mind'. So, just as you'd download an App for your phone or computer to expand its' capabilities, you'll now be able to download an 'App for your Mind' to enable you to achieve more than ever before. Client stories from the author's Harley Street practice demonstrate how to fix fears and phobias such as public-speaking or fear of flying; deal with bad habits such as shopping addiction or Facebook obsessions and even apply your very own hypnotic gastric band to combat overeating. Readers are encouraged to view this book as a 'first aid kit for the mind' that can support them, plus friends and family, for many years.

Every now and then there is a book that is so different, so remarkable that it stands out from the crowd. This is such a book. The joy of Bedwetting is a loving and irreverent trip into the world of the bedwetter and those who do so by choice and for pleasure. Not the guilt-trip and depths of shame for these bedwetters! These are those who relish the pleasure, the sight and smells of the soaked bed and mattress and who are proud of it. Touching on topics such as real statistics of the incredible frequency of bedwetting in teens and adults, it also offers helpful hints and suggestions on reverting back to that most childish state of night-time experience: uncontrolled bedwetting. Be Proud. Be Wet.

Jamie Glowacki—potty-training expert, Pied Piper of Poop, and author of the popular guide, Oh Crap! Potty Training—shares her proven 6-step plan to help you toilet train your preschooler quickly and successfully. Worried about potty training? Let Jamie Glowacki, potty-training expert, show you how it's done. Her 6-step, proven process to get your toddler out of diapers and onto the toilet has already worked for tens of thousands of kids and their parents. Here's the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20-30 months), and it can be done FASTER than you expect (most kids get the basics in a few days—but Jamie's got you covered even if it takes a little longer). If you've ever said to yourself: ** How do I know if my kid is ready? ** Why won't my child poop in the potty? ** How do I avoid "potty power struggles"? ** How can I get their daycare provider on board? ** My kid was doing so well—why is he regressing? ** And what about nighttime?! Oh Crap! Potty Training can solve all of these (and other) common issues. This isn't theory, you're not bribing with candy, and there are no gimmicks. This is real-world, from-the-trenches potty training information—all the questions and all the ANSWERS you need to do it once and be done with diapers for good.
