This loose-leaf, three-hole punched version of the textbook gives students the flexibility to take only what they need to class and add their own notes--all at an affordable price. For pre-nursing and allied health students (including mixed-majors courses). Building tomorrow's healthcare leaders Lourdes Norman-McKay wrote Microbiology: Basic and Clinical Principles to equip tomorrow's allied health professionals with necessary critical thinking skills. In the first and only introductory microbiology text developed from the ground up for allied health professionals, Norman-McKay teaches not only the fundamentals of microbiology, but also how to apply critical thinking to real-world healthcare scenarios. The

Human Perspectives author introduces her unique "S.M.A.R.T." problem-solving framework (Summarize known and unknown, Make connections, Avoid distractors, Read and re-read, Thoroughly answer) that helps students tackle clinical cases online and throughout the book. This textbook is the first on the market written to align with the American Society of Microbiology's Allied Health Learning Outcomes, featuring NCLEX/HESI/TEAS-style questions and emphasizing topics that are medically relevant. The author's conversational writing style employs accessible analogies and humor to engage students in their reading, while the artwork incorporates new research-based learning design principles to focus learners on what is truly important. Online videos of clinical

Foundations in Microbiology is an allied health microbiology text with a taxonomic approach to the disease chapters. It offers an engaging and accessible writing style through the use of case studies and analogies to thoroughly explain difficult microbiology concepts. We were so excited to offer a robust learning program with student-focused learning activities, allowing the students to manage their learning while you easily manage their assessment. Revised art and updated photos help concepts stand out. Detailed reports show how your assignments measure various learning objectives from the book (or input your own!), levels of Bloom's Taxonomy or other categories, and how your students are doing. The
