Many of us assume that our creative process is beyond our ability to influence, and pay attention to it only when it isn't working properly. For the most part, we go about our daily tasks and everything just "works." Until it doesn't. Adding to this lack of understanding is the rapidly accelerating pace of work. Each day we are face escalating expectations and a continual squeeze to do more with less. We are asked to produce an ever-increasing amount of brilliance in an ever-shrinking amount of time. There is an unspoken (or spoken!) expectation that we'll be accessible 24/7, and as a result we frequently feel like we're "always on." Now business creativity expert Todd Henry explains how to unleash your creative potential. Whether you're a creative by trade or an "accidental creative," this book will help you quickly and effectively integrate new ideas into your daily life.

Have better ideas, faster, without the stress and burnout. It isn't enough to just do your job anymore. In order to thrive in today's marketplace, all of us—even the accountants—have to be ready to generate brilliant ideas on demand. Business creativity expert Todd Henry explains how to establish effective practices that unleash your creative potential. Born out of his consultancy and his popular podcast, Henry has created a practical method for discovering your personal creative rhythm. He focuses on five key elements: •Focus: Begin with your end goal in mind. •Relationships: Build stimulating relationships and ideas will follow. •Energy: Manage it as your most valuable resource. •Stimuli: Structure the right "inputs" to maximize creative output. •Hours: Focus on effectiveness, not efficiency. This is a guide for staying inspired and experiencing greater creative productivity than you ever imagined possible.

#1 international bestseller Publishers Weekly bestseller *The Globe and Mail* (Toronto) *The Toronto Star* bestseller *The Vancouver Sun* bestseller From Neil Pasricha—*New York Times*, million-copy bestselling author of *The Book of Awesome* series and *The Happiness Equation*, thought leader for the next generation, and one of the most popular TED speakers in the world—comes a revelatory and inspiring book that will change the way we view failure and help us build resilience. We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn? RESILIENCE. And we need to learn it fast. Read *You Are Awesome* to learn: • The single word that keeps your options open after failure • What every commencement speech gets wrong • 3 ways to dramatically accelerate your ability to learn and adapt • The 2-minute morning practice that helps eliminate worry • Why you need an Untouchable Day (and how to get one) • and much, much more... Because the truth is, you really are awesome.

"A must-read for anyone interested in moving from inspiration to action." —Cal Newport, author of *So Good They Can't Ignore You* Most of us fill our days with frantic activity, bouncing from task to task, scrambling to make deadlines and chase the next promotion. But by the end of each day we're often left wondering if any of it really mattered. We feel the ticking of the clock, but we're unsure of the path forward. *Die Empty* is a tool for people who aren't willing to put off their most important work for another day. Todd Henry explains the forces that lead to stagnation and introduces practices that will keep you on a true and steady course. The key is embracing the idea that time is finite, so you should focus on the unique contribution to the world that only you can make. Henry shows how to sustain your enthusiasm, push through mental barriers, and unleash your best work each day.

From the author of *Die Empty* and *The Accidental Creative*, a new framework for understanding what motivates us and why. What drives us to unleash our best work? And how do we tap into that drive to get superior results with our managers, coworkers, and direct reports? As Todd Henry reveals in this illuminating book, drawing on decades of research and interviews with over 100,000 people, the answer is not one size fits all: some people are energized by a race against the clock, while others put in extra effort only when they feel part of a team. For still others, nothing is as motivating as the possibility of public recognition. Henry shows, in fact, that there are twenty-seven "motivational themes", each with its own unique DNA. For instance: · Those driven to Achieve Potential strive to build an ideal future, even when others may not see as far ahead. · Those needing to Overcome must conquer whatever obstacles come their way, no matter how difficult or time-consuming. · Those who strive to Comprehend and Express are obsessed with mastering new skills and showing off what they know—which is often a lot. · Those who want to Make It Right thrive when systems are running smoothly and usually know the "proper way" to do things. The Motivation Code teaches us to decode our Core Motivation so that we can have conversations, make decisions, and even choose career paths that lead us to experience engagement and fulfillment. Once we know how to activate our inner drivers, we can transform the work we do into work we love.

A practical handbook for every manager charged with leading teams to creative brilliance, from the author of *The Accidental Creative* and *Die Empty*. Doing the work and leading the work are very different things. When you make the transition from maker to manager, you give ownership of projects to your team even though you could do them yourself better and faster. You're juggling expectations from your manager, who wants consistent, predictable output from an inherently unpredictable creative process. And you're managing the pushback from your team of brilliant, headstrong, and possibly overqualified creatives. Leading talented, creative people requires a different skill set than the one many management books offer. As a consultant to creative companies, Todd Henry knows firsthand what prevents creative leaders from guiding their teams to success, and in *Herding Tigers* he provides a bold new blueprint to help you be the leader your team needs. Learn to lead by influence instead of control. Discover how to create a stable culture that empowers your team to take bold creative risks. And learn how to fight to protect the time, energy, and resources they need to do their best work. Full of stories and practical advice, *Herding Tigers* will give you the confidence and the skills to foster an environment where clients, management, and employees have a product they can be proud of and a process that works.
